NUMBER 19.

SEALY GUN BATTLE TAKES THREE LIVES

PAY SAND FREE FROM SHALE IS FOUND IN MINERVA

LEE OIL COMPANY BRINGS IN BEST PRODUCER OF THE FIELD.

Developments in the Milam county field has been active in the past week there has been more interest in both the shallow and deep tests in the county than for some time. The feature of the week in the shallow area was the drilling of the best well, in the history of Minerva field by the Lee Oil Company on the Neihous lease at something around 700 feet about 8 feet of solid pay sand was drilled into which is something unusual, as the sands in the other wells has been more or less mixed with shale. The well is the number 11 of the Lee Company and is estimated will make over 50 barrels daily when placed on the pump.

News that will be of interest to the oil fraternity is the announcement, that the Lee Company are preparing to drill a test well to around the 1600 lease in the Minerva field, in an area to 2000 foot level on the Neihous deavor in uncovering the large productive sands that is believed underlies the shallow pay. The drilling of this well will be done immediately and 36 days will complete the job.

After a lull in drilling operations for some time the Owens Petroleum Co., is starting operations again, and are moving rig and machinery on a location for the drilling of number 8 Henry. Number 9 and 19 location will be drilled as fast as possible.

The production of the Minerva field has now reached around the 400 barrel mark, according to the increased production of the field in the past week.

The deep test area is humming again, scores of oil field men, scouts, geologists and representatives of some of the large companies, are in this territory working over the different structures in the county. The S. A. Guiberson, Jr., number one Posey well, which has been shut down for some time, is nearly ready to be drilled to the lower levels. It is said the well will be drilled to the 4000 foot level if necessary to uncover the gusher pay.

Hundreds of acres of leases are being blocked in the county for deep tests, some of the operators predict that a new field will be uncovered here soon, the larger companies are watching Milam county and nothing is being overlooked by their eagle eyes.

A location has been made in the vicinity of Sharp for the drilling of a deep test. The location was made by A. F. Ballard for his principals.

DEATH OF ROCKDALE MAN COSTS ELECTRIC COMPANY \$10,625

WIDOW OF J. H. HAMILTON WINS SUIT FOR DEATH OF HUSBAND.

Mrs. Ella Hamilton has won by compromise with the Texas Power & Light Company a suit filed for damage as the result of the death of her husband J. H. Hamilton last spring when he was killed by a fallen wire in the city of Rockdale.

Mr. Hamilton was serving as a member of the grand jury and had left Cameron for Rockdale at night and on leaving the train during a slight storm came in contact with a high voltage wire blown to the ground by the storm. He was instantly killed.

Suit was instituted by Mrs. Hamilton and the case was settled this week by compromise with the Texas Power & Light Company paying Mrs. Hamilton \$10,625.

We have Aunt Jemima Flour.
MIDDLETON & THOMAS.

Houston, Sept. 6.—County officials of Austin county, Texas, were investigating Wednesday the most spectacular and fateful pistol battle which has been fought in Texas in years and which, Tuesday night caused the death of three men, the serious wounding of two others and the slight injury of a third.

The battle occurred at 8:15 o'clock on the main street of Sealy, Texas, fifty miles from Houston and claimed victims of two families, well known in Austin county, the Bell family of Bellville and the Schaffner family of Sealy.

At the very outset of the investigation, officials were baffled by the startling disappearance of the pistols with which the shots were fired. Up to Wednesday afternoon, no peace officer had been able to discover any trace of the weapons, it was reported to the Chronicle by long distance telephone from Sealy.

As a result of the shooting the dead are:

Fritz Schaffner, 50, prominent real estate man.

Robert Schaffner, 20, son of Fritz Schaffner.

Luther Bell, 30, railroad worker of Bellville, Texas.

The injured:

Ernest Schaffner, 18, son of Fritz Schaffner, stabbed, now in hospital at Sealy, hope held out for his recovery.

Thompson Bell, 22, brother of Luther Bell, railroad brakeman, shot and stabbed. Taken to hospital at Temple, Texas, doubt entertained as to his chance of recovery.

Foster Bell, 27 brother of Luther Bell slight flesh scars.

The shooting with its fatalities, came as a climax to a family dispute that is said to have extended over several months and to have involved the county judge's race in Austin county.

According to information given the Chronicle over the long distance telephone from Sealy, the three Bell and the three Schaffners met on the main street of the town in front of a drug store.

Witnesses told officers that the shooting soon followed and the casualties resulted. The whole affray was over within a few minutes. Sheriff Tim Walton of Bellville arrived about ten p. m. and Deputy Sheriff Jack Hillboldt who had been in Houston, arrived shortly afterwards.

Justice E. P. Castrop held the inquest about thirty minutes after the shooting.

BETTER ATTENDANCE AT CLUB IS URGED.

Directors meeting of the Cameron Commercial Club, Friday night, Sept. 1st, 1922.

Roll call showed the following present:

Officers—W. W. Chambers, vice president, W. B. Skelton, secretary.
Directors—J. W. Coleman, J. T. Parma, O. M. Smith, Dr. Jas. Watson, C. W. Lawrence, H. M. Hefley, C. R. Phillips.

Committee Chairman—C. W. Bradbury, W. M. Cobb, J. R. Hays, W. G. Gillis.

In the absence of president, McLane, the meeting was presided over by vice president W. W. Chambers.

Minutes of previous meeting were read and upon motion adopted. We M. Cobb, chairman of the Agricultural committee, reported plans working nicely for the livestock and Poultry show and that the premium list would be mailed out in a day or so. He also reported the Wilson-Ledbetter park being put in good shape for the fair.

J. W. Coleman and W. W. Chambers urged better attendance at the club meetings, recent attendance records being a disgrace to the club.

Upon motion from H. M. Hefley seconded by J. R. Hays the hour of meeting was changed from 8:15 to 8 o'clock p. m.

ENTERTAINMENT AT BURLINGTON SEPT. 16.

The Ladies Auxiliary of the Baptist church in Burlington will give an entertainment for the benefit of the church Saturday night September 16. Everybody cordially invited to attend the entertainment.

Cameron Schools Open Monday

The Yoe High School will open Monday September 12 for the new term. Above is shown the new Yoe High School given to the City of Cameron by the late Mrs. Carrie Yoe and her husband C. H. Yoe. It is one of the finest high school buildings in the state. In the upper left is L. H. Kidd, superintendent and in

the lower right is Dr. A. S. Epperson, president of the board of trustees. The grammar school will also open on Monday September 12 with Prof. Dick Brewer as superintendent. The Yoe High School has one of the best equipped commercial departments in the state and last year saw a number graduate from this department

which is maintained by the Lawless Green estate. It is hoped that the board of trustees will devise some means of improving the campus of this building as the service of a landscape artist is necessary to the proper survey and improvement of the grounds.

MEAT INSPECTION REQUIRED BY CITY IN NEW ORDINANCE

MARSHAL LUCAS MADE INSPECTOR—IS MOVE FOR BETTER MEAT HERE.

Inspection of all animals slaughtered for sale in the City of Cameron is provided for by ordinance passed at the meeting of the City Council Tuesday night.

This ordinance actively championed by Dr. T. G. VanZant, city health officer, makes it the duty of the city marshal to inspect all animals killed for meat sold in the city and having carried the emergency clause was passed at the meeting Tuesday night so as to become effective immediately. Mr. Lucas has begun the enforcement of the ordinance.

The ordinance which is published in full text is a move for better meat and insures the consumer against meat from animals whose condition is unfit for slaughter for food and will be welcomed as a food measure by the housewives of Cameron.

In addition to the passage of this ordinance, an ordinance was passed placing the burden of expense in installing water meters on the Cameron Water Power & Light Company. A meter system installed in Cameron by the company will be installed at the expense of the company with the exception of meter rent of 25 cents per month which will be born by the consumer as is the custom.

Dr. T. G. VanZant, city health officer, will begin plans at once on instructions from the city council, to provide for the inspection of dairy herds from which the city milk supply comes. This will be done in conjunction with the A. & M. College. As a pure food measure and to protect milk consumers against milk from tubercular herds, this health program by Dr. VanZant will find universal approval among the people.

As a means of protecting the playground equipment at the City Park the council has asked City Marshal Vince Lucas to appoint a park commissioner to give police protection in the park. Abuse of the playground equipment has been free on the part of some but the city has taken this means to insure respect for its property which in turn is the property of all the people. The playground equipment together with all other public property will be protected by police power to be appointed by the marshal.

All persons caught damaging this property will be arrested and prosecuted. Protection for the property was asked by the Civic League through its president Mrs. J. G. Vest, and upon the recommendation by members of the council. This city in granting this protection hopes it will not be necessary to prosecute but will do so if necessary to insure safety of the equipment.

Mr. Leland Green and wife are visiting Mrs. Green's sister in Waco, they expect to spend a few days in Dallas before returning to Cameron.

We have Aunt Jemima Flour.
MIDDLETON & THOMAS.

LIVESTOCK MEN DISCUSS COUNTY FAIR AT CAMERON

THORNDALE ENTERTAINS ASSOCIATION IN THIRD MEETING TUESDAY.

The Milam County Fair and Livestock Exhibit to be held in Cameron September 29 and 30 was discussed at the meeting of the Milam County Purebred Livestock Association held in Thorndale Tuesday afternoon.

The meeting, the third since the organization of the association, is the last to be held before the livestock show in Cameron. President Sam Mewhinney has called a meeting to be held in Cameron on Friday September 29 at 2 o'clock p. m., the opening day of the fair.

One of the important transactions of the meeting held Tuesday was that the Livestock Association will have charge of all auction sales of livestock when such stock is sold by its members at fairs and exhibits. An auction sale will be held at the Cameron fair this year, and sales will be held at the Thorndale and Rockdale fairs which will be held late this fall.

The Association will shortly undertake to auspice trips to the A. & M. College where those interested may see the advantages of purebred livestock and poultry.

George Banzhaf, county agent, was at the meeting Tuesday. Mr. Banzhaf has received notice from the A. & M. College that judges have been named for the fair in Cameron.

Those attending from Cameron were Roy Griffith, R. E. Sharpe, W. A. Beal and J. B. White, secretary.

The following new members were enrolled: Cameron—J. L. Barmore, M. W. Killian, Hubert Hefley Motor Co., Palace of Sweets, Triggs Dry Goods Company, S. A. Cottle, Roy Griffith, W. H. Marshall, Rockdale; H. H. Camp, San Gabriel; H. E. Fuchs, Buckholts; P. F. Fuchs, Buckholts; J. H. Franklin, Lexington R. 4; Thorndale: A. J. Kieschnick, Gus Newton, T. W. Terry, Thorndale State Bank.

AMERICAN LEGION TO BRING CARNIVAL HERE.

J. C. Tucker, chairman of the finance committee of the American Legion in Cameron with E. E. Sullivan, chairman of the committee on publicity is arranging for a carnival planned to have the carnival come to come to Cameron. It is being here during the fair on September 29 and 30.

3162!BALE TOTAL

The gins of Cameron have ginned 3162 bales of cotton up to noon Thursday. The movement of the crop in this county is well under way and it is predicted that the crop will be gathered within the next month.

There is no estimate as to the number of bales it is thought will be harvested in the county this year, but the crop is known to be short.

The price being paid on the streets here Thursday was 20c to 20 1-4c per pound basis middling.

This cotton is valued at approximately \$380,000.

LEGION ENDORSES BAND AND PARK TAX FOR CAMERON

RECOMMEND SEWERAGE EXTENSION IN STRONG RESOLUTION PASSED.

The American Legion in Cameron has passed a resolution recommending the passage of the band and park tax and the sewerage bonds to be voted on September 26. The resolution was passed at the regular meeting of the Legion Post on Monday night.

A full text of this resolution will be presented in our next issue. It is now being prepared by T. S. Henderson, Jr., acting adjutant of the post.

Jeff D. Hefley who has been adjutant of the post since last May resigned as adjutant at the meeting of the committee on Monday night. Mr. Hefley will leave Cameron to engage in business elsewhere and therefore cannot continue longer as adjutant of the post.

T. S. Henderson, Jr., was named as acting adjutant, to serve until the successor of Mr. Hefley has been named.

The meeting also passed a resolution commending the work of Mr. Hefley as adjutant of the post.

There will be a general meeting of the membership of the legion on the second Monday in October. The delegation to the state convention at Waco have made arrangements for headquarters at the Raleigh Hotel and all members who desire to attend should see the adjutant for proper credentials.

T. S. Henderson and W. G. Gillis have gone to San Antonio to attend the state Democratic Convention as delegates from Milam county.

SKRIKE CLAIMS OF UNION LABOR WILL BE EXTOLLED HERE

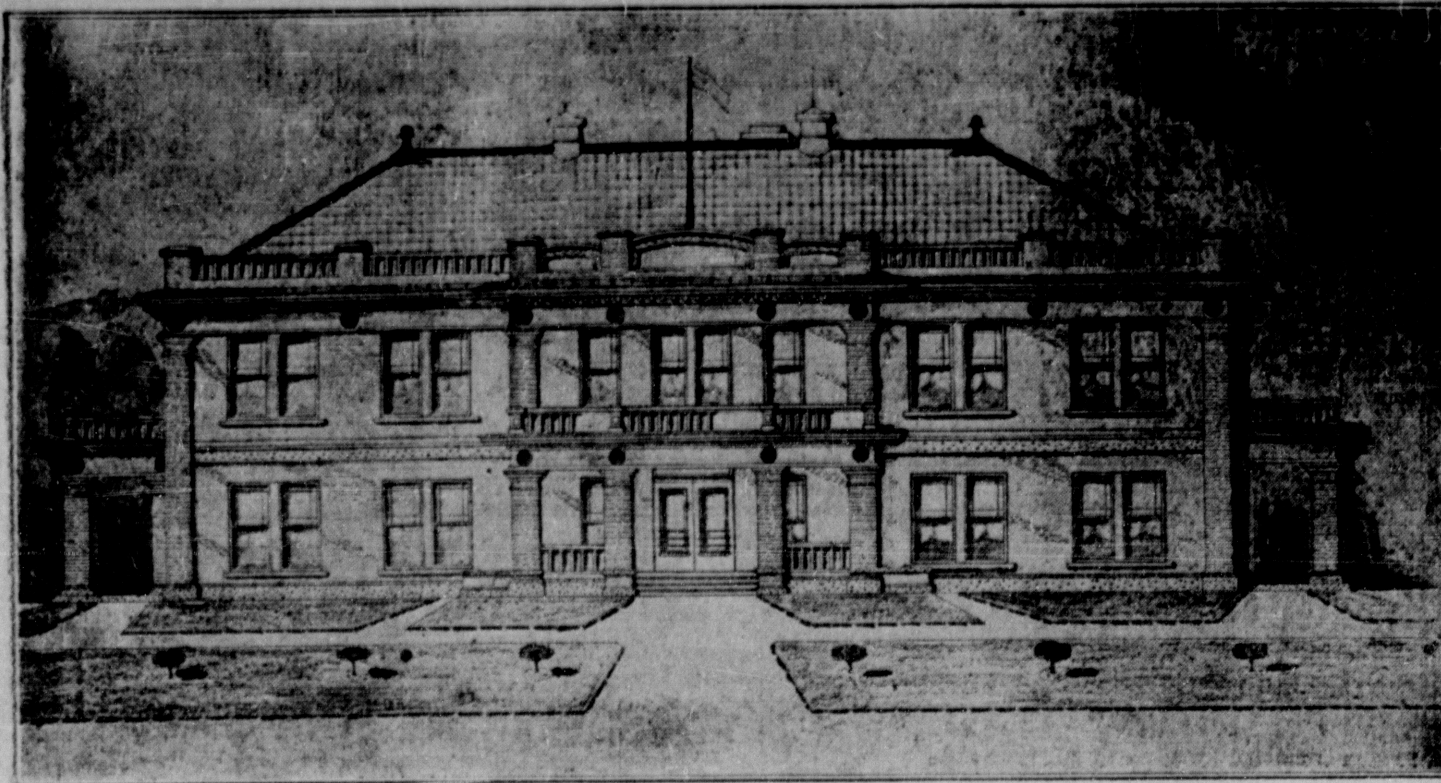

SHOP CRAFTS SPEAKER TO ADDRESS CITIZENS HERE SATURDAY NIGHT.

Strike claims of Union Labor through the shop crafts unit of the protesting workmen, will be placed before the citizens of Cameron Saturday night September 9 on the court house lawn in Cameron by a speaker assigned for the address.

The announcement of the speaking is made by the Temple local of the Shop Craft union. The name of the speaker is not given, but it is said that an able speaker will be on hand to talk to the people about the rights of the laboring men.

The recent injunction of the federal government has been denounced as an unwarranted and unjust invasion of the constitutional rights of the citizen and has evoked the ire of union labor leaders throughout the United States.

Local labor members are planning for a big crowd and the public is urged to hear the claims of the labor men.

THE BEN ARNOLD HIGH SCHOOL

Here is a rare photograph of the Ben Arnold High School built during recent years by the progressive citizenship of that little city. This

school is one of the best equipped schools in Milam county and is well supported by the citizenship of that

AN ORDINANCE authorizing Cameron Water, Power and Light Company to require the installation of water meters by consumers and regulating the same:

Be it ordained by the City Council of the City of Cameron:

Section 1. That the Cameron Water Power and Light Company shall have the right, at its option, to require the installation on the premises of any water consumer of a water meter provided that all such water consumers who have not such meters at the date of the passage of this ordinance shall not be required to pay for the cost of the installation of water meters hereunder, in case the said Cameron Water, Power and Light Company requires the installation of same, but such cost shall be borne by the said Cameron Water, Power and Light Co.; but this provision shall not apply to buildings to be hereafter erected or to consumers of water who begin such consumption after the passage of this ordinance. And the said Company shall further have the

right to direct and approve the character, size and installation of any and all meters installed, and shall have the right to inspect and examine the same.

Sec. 2. In the case of a "domestic use" water consumer, the size of the meter so required shall not be larger than that now technically known as "three-quarter inch water meter." And where the Company owns the meters it shall have the right to make a monthly "meter service charge" of twenty-five cents per calendar month or a fraction thereof for domestic use.

The foregoing Ordinance was duly introduced and offered for adoption and read in full and on motion was duly referred to the Committee on Ordinances at the regular meeting of the City Council held on the 5th day of September A. D. 1922.

The Committee on Ordinance duly reported the above Ordinance with recommendation that it do pass and on motion said report was received and by an aye and no vote of the Council the rule requiring Ordinances to be

read at three different meetings of the Council was duly suspended by a two-thirds vote of the members of the City Council and said Ordinance was placed upon its second reading and after being duly read was passed to its third reading this 5th day of September A. D. 1922.

The rule requiring the foregoing ordinance to be read at three separate meetings of the City Council was duly suspended by a two-thirds vote of the City Council and same was placed upon its third and final reading and was adopted by the City Council this 5th day of September A. D. 1922.

The foregoing Ordinance after having been duly passed and adopted by the City Council was by me duly approved and ordered recorded in the Book of Ordinances this 5th day of September A. D. 1922.

J. B. WHITE,
Mayor of the City of Cameron.

THE STATE OF TEXAS

County of Milam.

I, R. D. Brown, Secretary of the City of Cameron, do hereby certify

that the above and foregoing is a true and correct copy of the above styled ordinance and the proceedings relating to its adoption and approval as the same appears or record in the Minutes and Book of Ordinances of the City of Cameron.

Given under my hand and seal of office this 5th day of September, A. D. 1922.

R. D. BROWN,
Secretary of City of Cameron.

You Do More Work.

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS Chill TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS Chill TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS Chill TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS Chill TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

666

666 is a prescription for Colds, Fever and LaGrippe. It's the most speedy remedy we know.

EVEN CAREFUL
CALOMEL USERS
ARE SALIVATED.

Next Dose of Treacherous Drug May Start Misery for You.

Calomel is dangerous. It may salivate you and make you suffer fearfully from soreness of gums, tenderness of jaws and teeth, swollen tongue and excessive saliva dribbling from the mouth. Don't trust calomel. It

is mercury; quicksilver.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel

and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate. (Adv)

Do You Pay Your Bills?

Which?

John Doe, 22 Prosperity Ave.-----4YD
James Smith, 543 Shiftless St.-----H

Two meaningless lines to the reader who does not know. But to the office force of the Retail Merchants' Association they tell two different stories. The "4YD" and the "H" mean volumes to them.

It's the story of two men's lives. One lived so that HONOR, HONESTY and INTEGRITY predominated—the other didn't.

John Doe PAID HIS BILLS PROMPTLY and met his obligations as they fell due.

James Smith went the other way. He was indifferent, and while he may have been honest, he gave little attention to his bills and so drifted naturally into the SLOW PAY, DISHONEST and UNDESIRABLE CLASS.

The "H" tells the story. Deciphered, it means "REQUIRE CASH."

The "YD" means "Prompt Pay—Good Credit."

John Doe could walk into any store in Cameron, buy a bill of goods and say "Charge it" and walk out with his purchase under his arm.

James Smith couldn't.

Catalog yourself. Are you a John Doe, or a James Smith? Do you belong to the "YD" or the "H" class?

Credit Is Yours

CREDIT IS A WONDERFUL THING!

It buys all things material. It buys gold, therefore is worth more than gold.

CREDIT IS DEMOCRATIC.

Anyone can get it—the laborer in the ditch or the wealthiest man.

It knows no class, as judged by money. It belongs to him who has HONOR. It comes unbeckoned to him WHO PAYS HIS BILLS.

It says "Show me," and if the "show-down" of past performances you can "show"—can point to OBLIGATIONS FILLED and HONOR KEPT—credit is yours; but only so long as you continue to fill obligations and keep company with honor.

CREDIT IS FICKLE.

Let overdue obligations accumulate—broken promises pile up and credit waves adieu.

Again, tackle accumulated obligations and broken promises—PAY UP—make an effort to square yourself, COURT HONOR—AND YOU COURT CREDIT. Win HONOR and you WIN CREDIT.

The effort is worth the while.

"Pay Up"

NOW spelled backward means SUCCESS.

STOP dilly-dallying. Pull yourself together. Get the reins in your hands and DRIVE. Don't follow—DRIVE.

START TODAY TO PAY YOUR BILLS.

August bills will be due Friday, Sept. 1st.

If your bills have accumulated are past due to such an extent you can't pay them all at once—pay some, as much as you can. DO YOUR BEST. Don't get into the "deadbeat" mire.

No matter how small an account is, take care of it. Always remember the merchant has hundreds, probably thousands of accounts just like yours on his books. In the aggregate they mount up.

If you'll show a disposition to MAKE GOOD the merchant will help you. He is as interested in your credit as you are. He is just as anxious that you have a good one as you.

DON'T TRY TO BEAT YOUR WAY. You'll be caught. Always remember it's harder to go wrong than to go straight.

The Retail Merchants' Association is keeping a tab of your record. They know when you pay as well as when you don't. A united organization is making it impossible for you to get merchandise unless you PAY YOUR BILLS.

And the same organization is making it easier for you to get merchandise when you do PAY YOUR BILLS.

PAY UP—TODAY'S THE TIME.

Animal Inspector,
City of Cameron, Texas.

Sec. 9. It shall be the duty of the Animal Inspector of the City of Cameron to keep a carbon copy of each certificate of slaughter issued by him, and of each duplicate of certificate of slaughter; and any Animal Inspector who keeps such copy shall be guilty of a misdemeanor and shall upon conviction be fined not more than one hundred nor less than one dollar.

Sec. 10. It shall be the duty of every person offering for sale, selling, or possessing for the purpose of sale or offering for sale, any carcass or body, or portion thereof, of any cattle, sheep, goats or hogs, to keep subject to public inspection at the place of sale of offering for sale the certificate, or certificates, of slaughter, covering said slaughtered animal, or animals; and any such person refusing to permit such inspection of such certificates or such carcasses, carcasses, or portions thereof, at any reasonable hour, shall be guilty of a misdemeanor, and shall, upon conviction, be fined in any sum not less than one dollar, and not more than one hundred dollars.

Sec. 10A. Any person who shall, either directly or indirectly, sell, offer for sale, or possess for the purpose of sale or offering for sale any carcass or body, or any portion of any sheep, goat or hog, without first having in his possession a certificate of slaughter duly issued and signed by the Animal Inspector of the City of Cameron, covering the animal which, or a portion of which, is sold, offered for sale, or possessed for the purpose of sale or offering for sale, shall be guilty of a misdemeanor, and upon conviction thereof shall be fined in any sum not less than one dollar and not more than one hundred dollars.

Sec. 11. Nothing in this ordinance shall be construed to require the inspection hereunder of any animal raised, slaughtered and sold by the

owner thereof incidentally, the said seller not then and there engaging in the butcher or meat-selling business as an occupation.

Sec. 12. The fact that animal flesh that is unwholesome and unfit for human consumption has been sold in the City of Cameron, and that the protection of the health of the public of said City demands prompt action, creates an emergency, and requires that the rule providing for the reading of this ordinance at three meetings of the City Council be suspended, and this Ordinance put upon its final passage, and this ordinance will take effect from and after its passage, and it is so ordained.

J. B. WHITE,
Mayor of the City of Cameron.

THE STATE OF TEXAS
County of Milam.

I, R. D. Brown, Secretary of the City of Cameron do hereby certify that the above and foregoing is a true and correct copy of the above styled ordinance and the proceedings relating to its adoption and approval as the same appear of record in the Minutes and Book of Ordinances of the City of Cameron.

Given under my hand and seal of office this 5th day of September, A. D. 1922.

R. D. BROWN,
Secretary of City of Cameron.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 50c per bottle.

YOU CAN'T TRUST CALOMEL AT ALL.

It's Quicksilver, Salivates, causes Rheumatism and Bone Decay.

The next dose of calomel you take may salivate you. It may shock your liver or start bone necrosis. Calomel is dangerous. It is mercury, quicksilver. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and

should never be put into your system.

If you feel bilious, headachy, constipated, and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It can not be trusted any more than a leopard or a wild-cat. Take Dodson's Liver Tonic which straightens you right up and makes you feel fine. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate. (Adv)

AN ORDINANCE for the protection of the public health; regulating the inspection of cattle, sheep, goats, and hogs intended for slaughter and for sale within the City of Cameron, Texas; providing for an inspector of animals; prescribing the duties of inspector of animals; providing for form of certificate of slaughter; fixing fees of inspector of animals; prescribing the duties of persons offering for sale, possessing for purpose of sale or for purpose of offering for sale, or selling any carcass, body or portion of carcass or body of animals; providing penalties; and declaring an emergency.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF CAMERON, TEXAS—

Section 1. There is hereby provided for an inspector of animals intended for slaughter for the purpose of sale or offering for sale in the City of Cameron, Texas. Said inspector shall be known as the Animal Inspector of the City of Cameron. The Marshal of the City of Cameron shall be ex-Officio Animal Inspector of the City of Cameron.

Sec. 2. It shall be the duty of the Animal Inspector of the City of Cameron to inspect all cattle, sheep, goats and hogs intended for slaughter for sale or for possessing for purpose of sale or offering for sale within the City of Cameron, upon the verbal or written request of any person; and said Animal Inspector of the City of Cameron shall make said inspection within two day-light hours after the said request is made of him. Said Animal Inspector shall not be required to go further than one-half mile outside of the city of Cameron to make any inspection.

Sec. 3. It shall be the duty of the Animal Inspector of the City of Cameron to issue a certificate, to be known as a "certificate of slaughter" to the person requesting inspection of any head of cattle, sheep, goat, or hog, for each animal found by said Inspector to be wholesome and fit for human consumption.

Sec. 4. It shall be the duty of the Animal Inspector of the City of Cameron to refuse to issue a certificate of slaughter to any person covering any head of cattle, sheep, goat or hog that is unwholesome or unfit for human consumption.

Sec. 5. It shall be the duty of the Animal Inspector of the City of Cameron to issue, at the request of any person desiring to sell any carcass of any inspected animal to more than one

person for resale, as many duplicates of a certificate of slaughter as may be requested, said additional certificates to be marked duplicate and designated as "a," "b," "c" and so on, according to the number issued, in addition to the number of the certificate.

Sec. 6. The following animals are hereby, for the purposes of this ordinance, declared to be unwholesome and unfit for human consumption, to-wit: any diseased animal of any kind; any seriously wounded, bruised or injured animal; any sick, feverish, or unhealthy animal; any weak, emaciated, or badly drawn animal; any animal poor and weak from old age; any animal with sores, ulcers, or any other eruption; any boar of any greater age than 3 months; any bull of a greater age than 6 years; any ram or any billy-goat of a greater age than 6 months; any cow or heifer in a condition of pregnancy further advanced than 6 months; any ewe, sheep or nanny-goat in a condition of pregnancy further advanced than 8 weeks; any female animal within suckling period; provided that the enumeration of the classes of animals from the definition any animal which herein shall not operate to exclude may be unwholesome or unfit for human consumption by reason of some condition not enumerated.

Sec. 7. For each head of cattle inspected by him, the Animal Inspector of the City of Cameron shall be paid by the person requesting inspection the sum of fifty cents, and for each sheep, goat or hog inspected by him the sum of twenty-five cents, the said fees to be paid before the inspection of said animals; and the said fees to include issuance of certificate of slaughter in case condition of animal permits issuance; and for the issuance of each duplicate certificate of slaughter the said Animal Inspector of the City of Cameron shall be paid in advance by the person requesting same the sum of ten cents.

Sec. 8. The following shall be the form of the certificate of slaughter which shall be issued by the Animal Inspector of the City of Cameron covering each animal found to be wholesome and fit for human consumption, to-wit:

A PLACE FOR ALL THINGS.

There are those who cry "Education, education!" believing that it is the panacea for all ills, the means of ending all evil.

There are those who vociferate "Religion, religion!" equally sure that in the pulpit and its teachings are the seeds of the millennium, and that we need but to "believe" to end all our troubles, and solve all our problems.

Finally, there are those who mix their demands and ask for "religion in education" or "education in religion." These are they who want the Bible taught in public schools; these are they who insist the pulpit is a forum for political, sectarian, scientific and sociological discussion.

They forget, these enthusiasts, that an absolute separation of church and state is an American fundamental. Exclusive of Sunday, there are 144 hours in the week. In the usual public schools 30 hours a week is devoted to education. Why take from the 30 time to speak of the Bible? Why not take from the 114 hours not devoted to education, for study of the Word? What is Sunday for? For what is a Sunday School?

Men go to church one, two, three hours in a week. Why use those precious three hours to discuss books, men, politics, wars, crime, sex—all the scare-head stuff the radical "preacher," as opposed to the sincere minister of God, uses to "attract" people to the church?

There is a time and a place for everything; a time and place for education, and for religious instruction. The school is no place to teach the Bible, or religion; the pulpit is no place to teach geography or politics. Leave education to the school, reintroduce religious training to the home, give the church a chance to do its work and the schools opportunity for theirs, and we will all be better off, better educated, and more honestly and sincerely religious.

LET'S HAVE BETTER PAID TEACHERS.

If you are a married man, don't apply for a teaching position at Northwestern University, at Evanston, Ill.

Evanston, Ill., is a "social center"—or so the university authorities think. The salaries paid instructors are so slim that they can not maintain a wife and a family upon them, because of the "social demands" upon the time, strength, and pocketbook of the professors. Wives of learned instructors have had to take jobs in stores, and as telephone girls, and waitresses in restaurants (horrible thought,) in order to live!

Wherefore the university authorities say "no more married instructors."

A baldheaded man complained of a fly on top of his head. The town fool killed the fly with an ax. That he killed the baldhead, too, didn't appear to him to matter.

Did it not occur to the authorities to interfere with the unnatural, not the natural process? To eliminate the false standards of "society" and keep the true standard of human life? For it is not good for man to live alone; the unmarried instructor is sure either to marry or to wish to marry. If he does the first, he is fired; if he merely wants to and can't, he worries as much as the professor already in chains of debt and small salary and "society observance"—heaven save the mark!

The best teacher, other things being equal, is the happiest teacher. The laborer is worthy of his hire. Let Northwestern ban the "society" expense, let Northwestern reduce its program and pay a living wage, but let Northwestern take heed in time, for Nature is stronger than universities, and the ingrained instincts of the human race far more powerful than the ukase of the board of directors. Either Northwestern will change its ruling or Northwestern will go down, down, down in educational ability—not to mention desirability!

LABOR IS CHALLENGED TO BATTLE BY GREAT AUTOCRACY, CHIEF SAYS.

Washington, Sept. 4.—Labor Day this year finds all labor and all progress challenged by great autocracy of power which is both blind and ignorant.

All right thinking men and women had hoped that the end of the war would bring opportunity for constructive effort in the rebuilding of a great edifice of progress reared upon the ruins of war and upon the grave of defeated autocracy.

Political autocracy was destroyed by the war. We could not foresee—it was too incredible—the coalition of industrial autocracy that would arise to thrust into the arena an issue as vital to the maintenance of freedom vs. industrial slavery the political world by the war.

The issue today is industrial through enforced labor.

Everything now uppermost in the industrial world combines to make and shape the issue.

WAR IS DECLARED.

Great organizations of employers have declared war on the labor movement. Organizations formed to do the propaganda work of reactionary employers have been working night and day. Organizations such as the United States Chamber of Commerce and Associated Industries have done their best to embitter employers against the labor movement. The coal mine owners and the railroad managers enlisted in the fight on labor. The textile mill owners added their contribution.

Last, comes the administration, through the Attorney General, pledging the strength of the administration to what he calls the "open shop." That also is what it is called by employers. It is the shop closed against union workers. It is the shop called by the more unscrupulous among employers the "American plan" shop in which autocracy is developed to the last degree and everything really American is repudiated with brutal indifference. This onslaught on the

unions, the efforts to establish governmental tribunals, called "industrial courts" having compulsory powers, the movement to enforce wage reductions combine to form a great effort to destroy organization among the workers, to render them helpless and to compel them to work regardless of their will, their desire or their welfare.

No nation can call itself free or democratic when its workers are enslaved.

But let me say this: American workers will not submit to enslavement. They will not submit to destruction of their standards. They will not submit to restoration of autocracy. They will not permit the destruction of freedom. They are determined that the principles upon which this Republic was founded shall endure, law breaking judges, greedy financial powers, grasping, reactionary corporations and paid propagandists to the contrary notwithstanding.

It is a time that tries men's souls and men's courage. It is a time that age, fortitude and great determination. It may demand great sacrifice. But no price is too great to pay for freedom, for the freedom envisaged by the Continentals under Washington, the freedom envisaged by the serene, determined Lincoln, for the freedom whose spirit inspired the great American armies that crossed the sea to France.

That this freedom, the great prize held forth by American to the whole world, signalized by the upraised torch of light, toward which the eyes of the oppressed have turned from every corner of the earth, should be destroyed now by the power of wealth the might of mere investment, at the behest of dividends and interest, is unthinkable. The people of America are made of the stuff that does not bow the knee to tyrants in whatever garb they come.

Labor had not sought this conflict. It has been labor's hope, and is labor's hope that the day may come speedily when it may be possible to give full effort to the task of good will, working in co-operation

with the management unburdened by Wall Street masters to the end that there may be a greater volume of production with which to enrich our people and enlarge the horizon of their lives.

Labor hopes for the great day of peace and good will, but if it must stand in the trenches to preserve the freedom that alone can lead to the day of peace and good will, then it will stand as its forebears have stood with credit to the cause.

CHILD'S HEALTH CONFERENCE.

There will be a Child's Health Conference September 14 and 15 at the Red Cross Headquarters at the Commercial Hotel building under the auspices of the Extension Department of the State University and Miss Pinchney of that department will be here to conduct the conference.

Mrs. Frank Redfield will be chairman of the enrollment committee and will see that all children between the ages of 6 months and 7 years are enrolled. You may get in touch with her by telephone at 317J.

We are anxious to have each baby present that was examined at last conference as four successive examinations entitle child to a certificate.

Children will be taken according to appointment time, each appointment to be five minutes apart.

LENA WELLS DOSSETT IS RELEASED FROM JAIL.

Lena Wells Dossett convicted in the county court on a charge of keeping a bawdy house, was released on a convict bond filed with Judge Jeff T. Kemp last Thursday. She had finished an 80 day jail sentence on conviction in four cases but had not paid the fine of \$800 assessed by the juries. Payment of one fine with cost was accepted by Judge Kemp with the convict bond which was signed by two sureties, thus securing her liberty and arranging deferred payment of the fines assessed against her in each of the cases. The law makes provision for release from jail with proper arrangements for payment of fines through the convict bond procedure.

She has already composed several pieces of music, is an accomplished piano, violin and mandolin player, and an expert needle worker.

NOTICE TO ALL SCHOOL TEACHERS AND TRUSTEES OF MILAM COUNTY.

In view of the fact that public health work is done in our county to prevent the spread of communicable diseases, it is well that all teachers and school board co-operate with the health authorities to the extent of advising pupils with symptoms of such diseases to remain away from school for such time as is necessary to definitely determine whether same is communicable or not, and to exclude all pupils with skin eruptions until they are well or bring a certificate from a physician stating that they have no diseases of a contagious or infectious nature.

The Red Cross Nurse is authorized to exclude any one from school who she finds suffering from any communicable diseases.

County Health Officer.

Mr. and Mrs. P. E. Higgins of Dallas are in Cameron to attend the wedding of their brother, Edwn York to Miss Ann McClendon which occurred at Ben Arnold Wednesday. Mr. Higgins is a Milam county boy having been born and reared near Thorndale. He was formerly in the service of the Herald and was with the Thorndale Thorn and Rockdale Reporter for several years during his newspaper experience in this county. He has many warm friends in Cameron who are glad to record his visit here.

We have can Walnut. MIDDLETON & THOMAS.

By MRS. W. A. GILLON

MISS ESTELLE COLEMAN HONORED

Last Wednesday morning at 9:30 Miss Clara Thomas entertained at forty two in honor of Miss Estelle Coleman, whose marriage will take place Thursday evening of this week. In the receiving line were Miss Clara Thomas, Miss Estelle Coleman and Mrs. Tom Law of Waco. The house was beautifully decorated with various kinds of white and pink cut flowers and ferns. The score cards for the occasion were in the shape of a wedding ring including the picture of a bride and groom.

After many interesting games had been played the hostess, assisted by her sister, Mrs. Law, placed a beautiful little pink basket of flowers on each table and served a delicious salad course of pressed tongue, banana salad, sandwiches and lemon ice cream. The basket of flowers were given as table favors. The bride elect was presented with a beautiful friendship picture.

COMPLIMENTARY 42

Friday afternoon of last week Mrs. Geo. Graves and Mrs. John Mangum gave a 42 party in the latter's home in honor of Miss Estelle Coleman. The guests assembled on the spacious porch, where they were served refreshing tea and sandwiches. Eight tables were arranged for 42 in the yard and on the porch. The score cards were pictures of cupids guarding the bride's baggage labeled "health," "prosperity" and "happiness" 84 favors which were won during the games were gilded wishbones, hearts, bluebirds and other appropriate symbols.

The hostesses, assisted by Miss Gertie Graves, Mrs. Wylie Mangum and little Bess Mangum, served delicious ice cream moulded in the shape of a ladies' slipper and squares of angel food cake.

Miss Coleman and Miss Ann McClendon were presented dainty little powder boxes and puffs.

BIRTHDAY PARTY

Last Tuesday afternoon Mrs. Pope Sapp gave a birthday party for her little son, Clayton, who was six years old on that day. About thirty little boys and girls gathered on the lawn and played games until time to cut the big birthday cake, bearing six candles. Joe Smith cut the ring, Earnest Sharp the nickel, Frances McDermott the dime and Bess Mangum the button. Clayton received all kinds of gifts that delight a little boy's heart.

Mrs. Sapp, assisted by Mesdames Raymond Sharp, Walter Sharp and E. A. Sharp, served ice cream cones.

PRESBYTERIAN AUXILIARY

There were four present at circle number one Monday afternoon. Mrs.

MacFadyen led in the Bible study. The circle will meet next with Mrs. Frank Lesovsky.

Circle number two and three met at the church. There were five present. Mrs. Jim Watson led the Bible lesson.

BAPTIST AUXILIARY

All of the circles met at the church in a business session, the president, Mrs. John Denson, presiding. There were fifteen members present.

AUCTION "42."

Last week a number of ladies met in the City Park and organized a new "42" club, which they decided to call "the Auction 42 Club." Their first meeting will be in October.

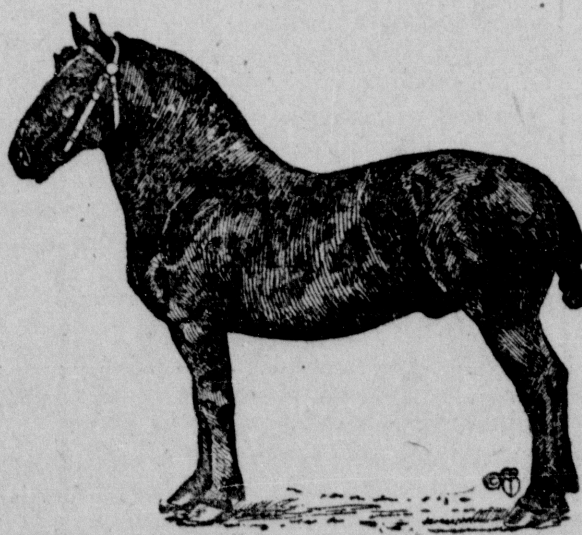

Oid U Tellem Sez:

"We have quite a good many hens this year and they have been laying right along. The missis says she is willing to take care of them, but it's up to me to sell the eggs. Well, I settled my part of the work satisfactory when I got in touch with the Peter Produce Company. Ne peddling or bothering for me. The Peter Produce Company always treats me right on the price and is always ready to take all I have."

"U tell'm stamp; you've been lick-ed."

AUTOMOBILE SECTION

WHY YOU SHOULD OWN AN AUTOMOBILE

Man's capital in the business of life is his time. His primary use of his capital is to buy space. From the primordial slime to this very hour, his life has been a matter of movement. Man must incessantly move himself and his goods from place to place. He must buy space with his time. The value of his time is measured in terms of space—miles per hour. His capital stock of time is limited to three score years and ten. With this limited capitalization he must even bargain for more and more space. He is ever trying to increase the working power of his limited capital.

For ages man bought his space with the horse whose four feet had a greater purchasing power than his two. He bought space with the currents of rivers and with the winds. He bred the horse to go faster and faster, built faster sailing ships, and thus slowly and laboriously added a meager mite to his little store. He discovered steam, and had his first big bargain at the space counter. His stock went soaring. He crowded steam faster and faster, gaining more and more of space, but it was qualified by rigid rails and vast expenditures of preliminary effort. His steam machine was master of the man. Man must still go with the machine on the machine's time. Even with the mile-a-minute locomotive man's greatest movement was still with the horse at eight miles an hour.

Then came the automobile, and the price of space fell. As fast as the steam train, as mobile as the horse, the motor car increased man's capital of time manifold. Man is master of this machine to use it when and where he will. Man began to move voluntarily with slow feet. He was one of the slowest of the vertebrata. But now he darts about the earth faster than the fastest.

If one be disposed to ponder over the details of life; to go back of the outward immediate aspect of things, there is much more to an automobile show than an attractive marketing place.

Let any man look down at his two feet that can barely pace a yard at a time and then at these "seven league boots" that step by miles and let him consider how his time has been stretched and his space shrunken.

They are all of them, from skimpy flivver to luxurious limousine, the evidence of man's victory over his limited capital of time.

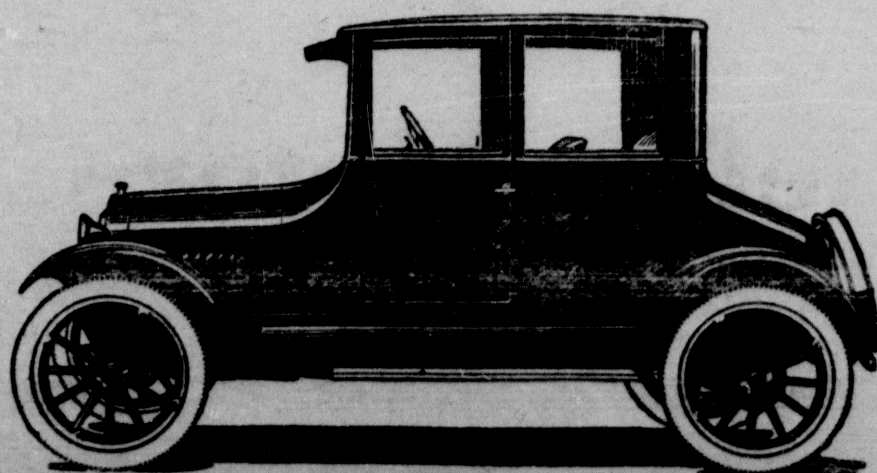

They mark one of his greatest triumphs, the multiplication of his movements.

Which is but another way of saying that the automobile has lengthened his life.

Motor transportation in all its modern phases from the commercial truck, the powerful tractor that has revolutionized power problems on the farms to the luxurious and servicable automobile is solved with a surprising triumph of 1922 models in all makes of motors as shown by Cameron dealers and distributors. Motor purchasers to investigate the advantages of Cameron as an Automobile Center will find their motoring needs more thoroughly met by reason of the varied selection of car makes, than any other city in this section of Texas.

Inside you will find the Cameron car dealers who are appealing appreciate your patronage enough to advertise for it. Remember the advertised car, truck and tractor, when you get ready to buy. Make your plans to but that automobile in Cameron.

1923 Automobiles

First Hudson Built Is Still In Service

Proof that the limit of Hudson endurance has never been reached is to be found in the fact that Hudson No. 1, the first ever built, is still in daily service in Poughkeepsie, N. Y.

Shipped from the factory on July 3, 1909, it has since run more than 200,000 miles, or an average of more than 20,000 miles a year. Its owner is Joseph P. Davis, who is just as proud of his car as is the newest owner of the latest Hudson Super-Six.

Although lacking some of the latter-day refinements, such as a self-starter and electric lights, Hudson No. 1 looks hale and hearty and is fully capable of outperforming many cars turned out today.

APPEARANCE ATTRACTS THROU
A critical inspection of the car is like looking at a wonderful old portrait. The first feeling of amusement at the faded masterpiece is soon superseded by admiration of its lines of strength and character.

Although the body of this first Hudson sits high up in the air, there is no sign of sagging in the frame which is as rigid as when it left the factory. The upholstery is in the old, tufted style, but is in a remarkably fine condition although slightly bleached by exposure to the elements.

Springs, transmission, wheels, bearings, steering-gear and all other mechanical units are still capable apparently of untold thousands of miles more of satisfactory service. The motor runs sweetly and possesses remarkable flexibility and power.

The appearance of this old Hudson on the streets never fails to attract a strong following of people who can still remember when it was in the height of style and was as remarkable for its appearance as it was for its performance.

QUALITY IN ALL MODELS.

That even such an exceptional record is nothing unusual for a Hudson is shown by the fact that in New Orleans, La., there is another Model 20, built in 1909. This one has been converted into a truck by the Model Sheet Metal Works of Algiers and is daily being used for the most strenuous kind of work, adding to its total of thousands of miles of unflinching service.

This endurance, which represents an ideal, has been built into every Hudson and the perfection of the latest model is only the fulfillment of the promise of the very first Hudson ever built.

DON'T NEGLECT LUBRICATION.

In the summer months the motor owner to carry a heavy burden. The car is called upon by the average car not only acts as an efficient transportation agent in connection with the owner's business but it must also serve the family in the evenings, on week-ends and through vacations, as the principal factor in providing a change of scenery and atmosphere.

It is well to remember at this season when as a rule the automobile is being pressed harder than at any other season, that special attention must be given to the lubrication of working parts and to the supply of water in the cooling system. It takes very little time when a car is in almost continual service to run up mileage and there should be no disposition on the part of the owner to overlook the things which are essential to the

satisfactory operation of the automobile.

In the warm weather oil should be drained from the motor crankcase and replaced with fresh oil regularly. In the case of new cars just purchased from the manufacturer, it is suggested that oil should be changed at the end of the first 500 miles of driving. It has been found very satisfactory by many Buick owners to change the oil in the crankcase every 800 to 1000 miles in the summer months and every 500 miles in the winter months after making the initial change on the completion of the first 500 miles of driving. The oil supplied the motor should be a good grade medium or light medium mineral oil. This oil should be used exclusively in the motor lubricating system, for valve rocker arms, distributor and generator bearings, spring seats and for joints not otherwise provided with lu-

J. T. PARMA.

In addition to being the head of the Cameron branch of the Motor League of South Texas Mr. Parma is the distributor here for Diamond Tires and has made them popular in this county. Mr. Parma recently was given the entire county as his selling territory and has made rapid progress for a wide representation of the Diamond tire on the good roads of this county.

Mr. Parma led the way for a tourist park in Cameron and first attracted attention to the park.

brication, such as spark and throttle rods, brake rods and the like.

In connection with the transmission it is not advisable to use too heavy an oil. A good grade 600-W lubricant should be used, keeping the transmission case filled to the level of the opening at all times. This insures proper lubrication of the universal joint which is virtually an integral part of the transmission. When the transmission is supplied with a good grade of oil, there is a flow of oil from the transmission case through the bearings to the universal joint and back to the transmission case.

The rear axle should be properly lubricated at all times. The differential housing should be kept filled to the opening with a good grade 600-W lubricant. The lubricant used in both transmission and the rear axle should be a high grade mineral oil. It is believed that it gives much better lubri-

cation in such places than most of the so-called "gear grease."

The lubrication of the tie rod bolts, starter sliding gear, brake shaft, brake camshaft, steering connection regularly. It is of particular importance that the clutch release bearing be lubricated regularly because of its constant use in coasting, changing speeds and traffic driving.

The grease used during warm weather should be a high grade grease

consisting of a homogeneous mixture of mineral oil and pure lime soap. It should be free from acids and other adulterations, of a soft nature yet have a sufficiently high melting point to prevent free flowing when warm.

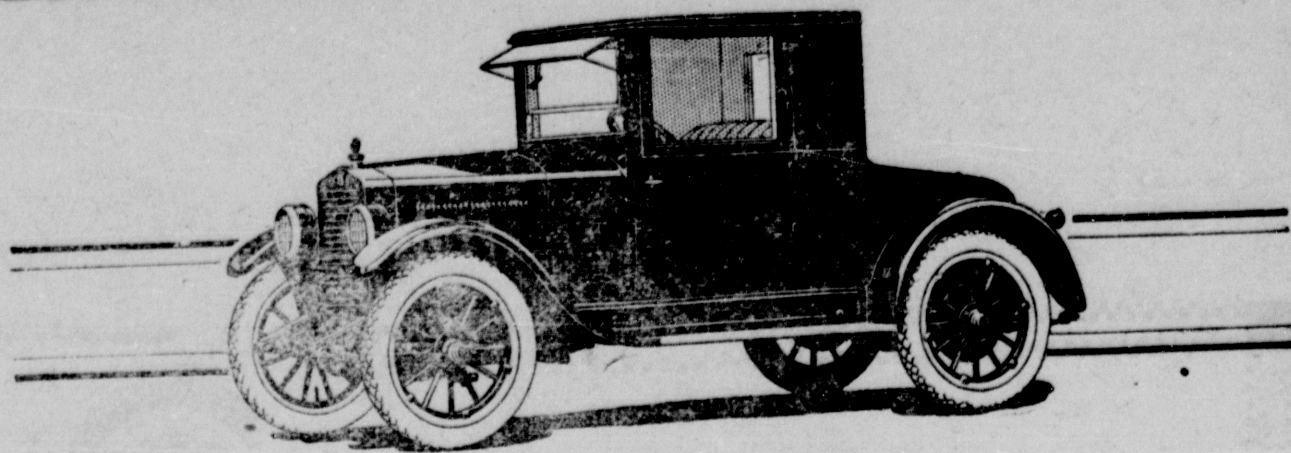

Too much emphasis cannot be placed upon the necessity of careful and regular lubrication.

NOTICE.

This is to give notice to the public

that cotton receipt No. 10684 issued in the name of Fred Martinez on the 26th day of August 1922, by the Cameron Compress Company, for one bale of cotton delivered by him to that Company, has been lost, and that the undersigned is the legal owner and holder of said cotton, and the public is warned not to accept said receipt or to deal with same in the hands of any other person.

G. B. Taylor.

ESSEX Cabriolet \$1195

For Individual Transportation

Business men, who first of all want certain, dependable transportation, are quite naturally enthusiastic about the Essex Cabriolet.

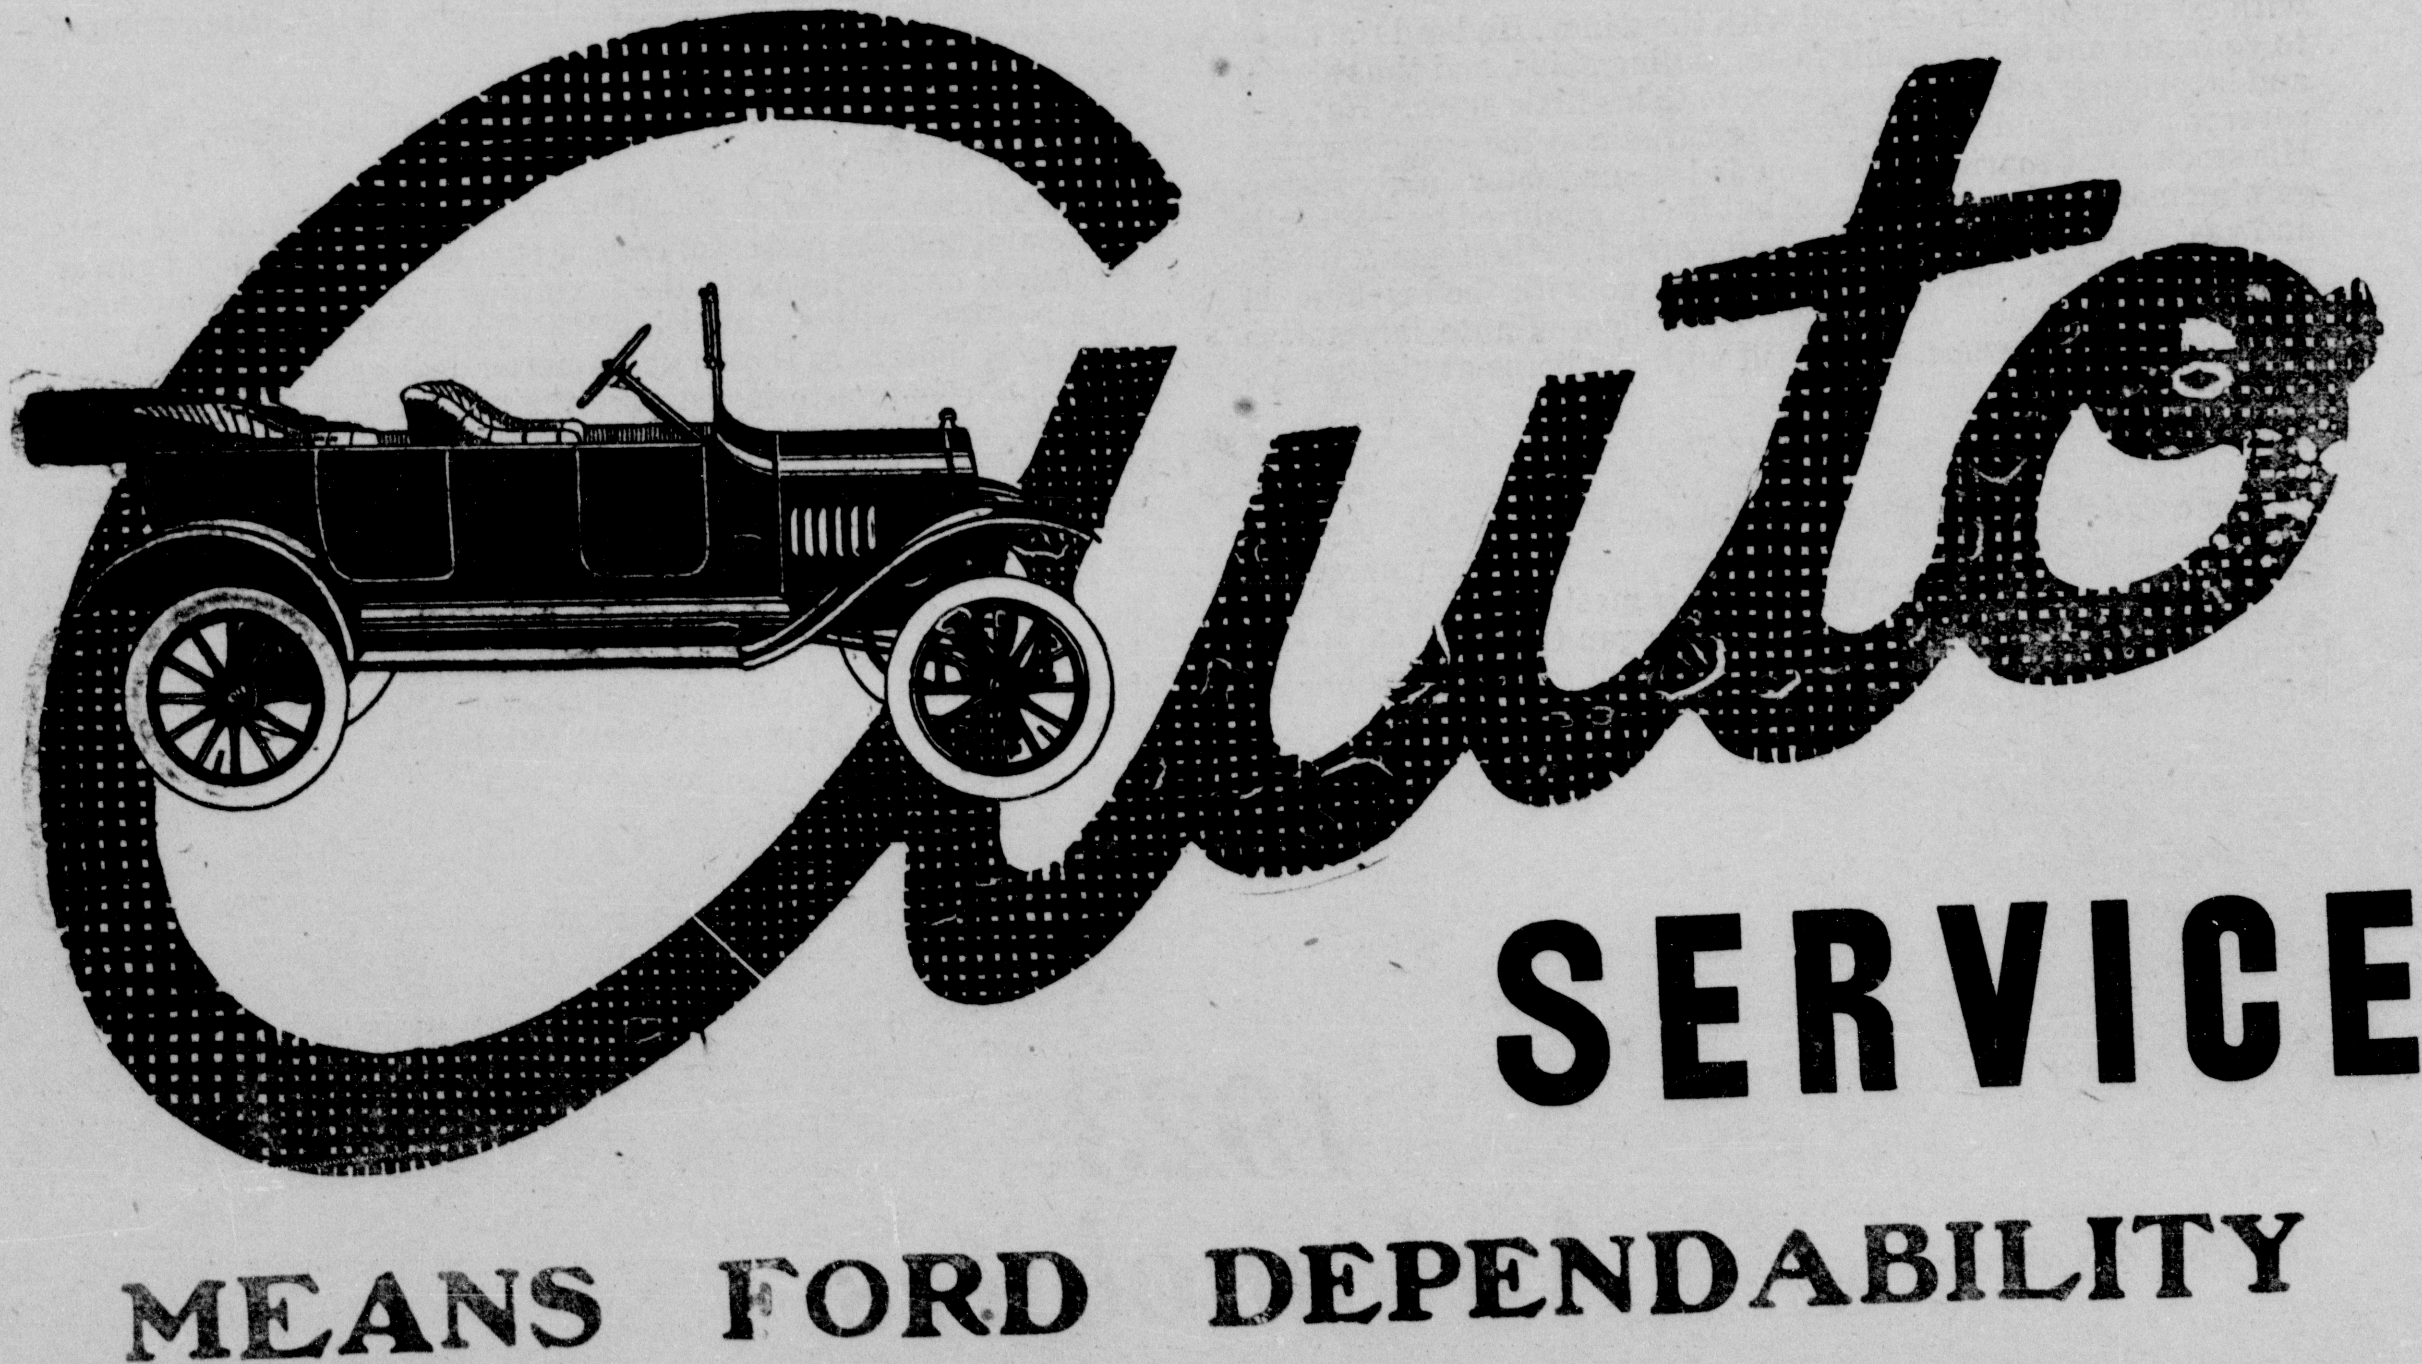

An all weather car. Large carrying space in rear deck. Ample leg room. Comfortable, deep seats. Handles easily. Long hours of driving do not cause fatigue.

Its smart appearance appeals to women drivers, too, and its simplicity of operation and rare need for attention makes it ideal mechanically for their use.

STUDEBAKER FINDS LARGE PLACE HERE IN MOTOR CIRCLES

POPULAR SIX AUTOMOBILE RAISES STANDARD OF MO- TOR TYPES IN COUNTY.

The Studebaker automobile has found a large place in motor circles in Milam County through the distributing agency of Joe J. Michalka in Cameron.

At once one of the leading types of six cylinder cars in America the Studebaker is equally as distinctive as a motor for service, economy and comfort with beauty and style to spare.

Satisfied users of the Studebaker in Milam county and in Cameron give testimony to the value of this car as a unit of service and dependability.

In the big and little six the distributor finds that the requirements of all can be met in the matter of selecting motor cars.

The Oakland car is also sold here by Mr. Michalka and this sensible six has found a large place of utility among the car drivers of the county.

TEN YEARS OF SUCCESS MAKE THE WHITE TRIANGLE MO- TORDOMS MARK OF DIS- TINCTION.

The same men who built the first Hudson also built the latest Super-Six—the perfected development of ten years of achievement.

Late in 1908 the plans for the first Hudson were drawn up in a single, small drafting room in Detroit. They represented the accomplishment of a long cherished ideal.

The Hudson Motor Car Company was incorporated in February, 1909. In its first year it planned to build only a few cars of a four cylinder, two-passenger, roadster type.

Although production did not begin until the middle of the summer of 1909, before the end of that year 1,100 cars had been built and sold and orders were on hand for a thousand more.

SUPER-SIX OPENS NEW ERA.
To supply this demand the factory in 1910 was moved to its present

location and during that year 4,556 cars were built and sold. And again there were many unfilled orders on hand.

The next two years the success and growth of the company continued and in 1913 it brought out the first and justly celebrated six-cylinder Hudson.

So remarkable was the success of this model that Hudson became in that year the world's largest producer of six-cylinder cars. At that time the factory employed about 1,200 men.

In 1914 the building and selling of four-cylinder cars was abandoned but 10,261 "Sixes" were turned out that year and, as usual, this number was not sufficient to meet the demand.

In the late fall of 1915 came the announcement of the Super-Six which marked a new era in automobile design.

In the Super-Six, by the use of an exclusive Hudson principle, the power of the motor was increased 72 per cent without any increase in weight or sacrifice of simplicity.

The success of the Super-Six was instantaneous, the public being quick to recognize its unique and exclusive advantages which could be obtained in no other car.

To meet the demand which resulted, a third story was added to the entire factory, almost doubling its manufacturing space, and later two wings were added to the administration building.

It also was at this time that Hudson began to manufacture its own motors and the number of employees was increased to approximately 3,500.

The achievements of the Super-Six in the years which followed made the White Triangle motordom's greatest mark of distinction.

FAME SPREADS OVER WORLD.
The number of factory employees has increased to nearly 5,000 while growth both in size and in completeness of equipment.

"Confidence" and "courage" have been the constant Hudson watchwords. After the signing of the armistice, while many business men were holding back on plans for the future, Hudson was not only bending every effort to get back into production, but also actually to double the volume of output.

An immediate and tremendous expansion of its facilities which had been placed unreservedly at the disposal of the government began at once.

In just a few weeks new assembly lines were constructed and a new machine shop and engine test room put into operation in preparation of a volume of output estimated at \$56,-

000,000 in 1919 as contrasted with a volume of less than \$1,000,000 in 1909.

A TONIC

Grove's Tasteless chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

Grove's Tasteless chill Tonic is simply Iron and Quinine suspended in syrup. So pleasant even children like it. The blood needs QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and Grip germs by its Strengthening, Invigorating Effect. 75c.

Was Very Weak

"After the birth of my baby I had a back-set," writes Mrs. Mattie Crosswhite, of Glade Spring, Va. "I was very ill; thought I was going to die. I was so weak I couldn't raise my head to get a drink of water. I took . . . medicine, yet I didn't get any better. I was constipated and very weak, getting worse and worse. I sent for Cardui."

TAKE

CARDUI

The Woman's Tonic

"I found after one bottle of Cardui I was improving," adds Mrs. Crosswhite. "Six bottles of Cardui and . . . I was cured, yes, I can say they were a God-send to me. I believe I would have died, had it not been for Cardui." Cardui has been found beneficial in many thousands of other cases of womanly troubles. If you feel the need of a good, strengthening tonic, why not try Cardui? It may be just what you need.

MANSFIELD FABRIC TIRES ARE SOLD TO USERS HERE

FELIX MATULA & COMPANY
PUSHING SALE OF POPULAR
FABRICS.

Mansfield tires are being sold in this county by Felix Matula & Co., of Cameron. These tires are being extensively used by motorists with a good guarantee. Discussing this guarantee Mr. Matula said:

"We guarantee all pneumatic automobile tires of our manufacture bearing serial number to be free from imperfections in material and workmanship. Tires returned for consideration under this guarantee will be accepted only when all transportation charges are prepaid. If upon examination it is our judgment that tires are defective they will be repaired or replaced at our option.

"When tires are replaced by us, charges will be made to owners at the time new tires are delivered, for such amounts as in our judgment will compensate for the service rendered by such replaced tires.

"Pneumatic automobile tires of our manufacture are not guaranteed to give any definite miles of service, and any and all guarantees are expressly waived by any purchaser of these tires who uses therein any substitute for air, or who uses them under weights in excess of those for which the various tires are recommended, or who does not keep tires inflated to the pressure recommended by us."

FRED MATULA TIRE AND
REPAIR BUSINESS IS
SERVING HUNDREDS.

The tire repairing business of Fred J. Matula in Cameron is serving hundreds of satisfied customers in the city and the surrounding territory.

In addition to the tire repair business.

Indigestion? Try Ironized Yeast

Do you suffer with indigestion or dyspepsia? Are you troubled with that uncomfortable bloated feeling after meals? Are you bothered with frequent headaches, gas, nausea, or chronic constipation? If so you should lose no time in trying Ironized Yeast, which has brought amazing relief to thousands of stomach sufferers. Simply take two tablets with each meal. Then watch the results. See how your appetite immediately improves. Note how quickly the bowels become regular—how painful and distressing symptoms of indigestion disappear. In a remarkably short time you will have no thought of stomach trouble. Eating will become a pleasure. You can get real joy out of every bit of your food. Get Ironized Yeast today. Then experience the blessed feeling of being able to eat a hearty meal without the least thought of discomfort. To try Ironized Yeast entirely free simply mail postcard for Famous 3-Day Test. Address: Ironized Yeast Co., Dept. 103, Atlanta, Ga. Ironized Yeast is recommended and guaranteed by all good druggists.

STOP RHEUMATISM WITH RED PEPPER

When you are suffering with rheumatism so you can hardly get around just try Red Pepper Rub and you will have the quickest relief known.

Nothing has such concentrated, penetrating heat as red peppers. Instant relief. Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes it warms the sore spot through and through. Frees the blood circulation, breaks up the congestion—and the old rheumatism torture is gone.

Rowles Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar at once. Use it for lumbago, neuritis, backache, stiff neck, sore muscles, colds in chest. Almost instant relief awaits you. Be sure to get the genuine, with the name Rowles on each package.

Healing Cream Stops Catarrh

Clogged Air Passages Open at Once—Nose and Throat Clear.

If your nostrils are clogged and your head stuffed because of catarrh or a cold, get Ely's Cream Balm at any drug store. Apply a little of this pure, antiseptic, germ destroying cream into your nostrils and let it penetrate through every air passage of your head and membranes. Instant relief.

How good it feels. Your head is clear. Your nostrils are open. You breathe freely. No more hawking or sniffling. Head colds and catarrh yield like magic. Don't stay stuffed up, choked up and miserable. Relief is sure.

ness Mr. Matula stocks a line of tire accessories and is doing a good business in this line of endeavor.

In business for about two years Mr. Matula has been successful to a large degree and is looking forward to a good business this year.

SHIRES MOTOR COMPANY
GIVES GOOD SERVICE.

W. L. Shires, an expert mechanic and all round automobile man, has established an auto and repair business in Cameron and is meeting with

the success he deserves as a man of experience in his line of business.

Before establishing the Shires Motor Company Mr. Shires was with the Daugherty Motor Company, and later with the Cameron Motor Company then ran under the firm name of Shires and Schiller distributors of Buick automobiles.

NEW BUICK CARS FOR 1923

No single season in recent years has seen so many improvements in Buick cars as the present one; and never has the Buick line been so complete.

Here is a double advantage for the purchase of a motor car. Among the fourteen fine vehicles that bear the Buick name plate for the season of 1923 there is a range of selection and a mechanical excellence that insures the utmost of satisfaction.

Buick has long stood apart among motor cars. For twenty years and more Buick has been the world's leading exponent of the Valve-in-head principle of motor design and Buick cars have been everywhere respected for their marked power, endurance, long life and economy.

The present season is one of exceptional progress, for it brings with it changes so general that they improve the operating, or the comfort, or the convenience of every unit in the car, from the engine to the smallest details.

All of these changes are well-considered and have their origin in sound engineering. The engine, for example, is fitted with longer pistons and connecting rods, adding to the smoothness and long wear for which the Buick engine has always been noted. A new rear spring suspension has been devised which is undoubtedly the highest development of the cantilever type yet achieved. The frame, the transmission, the rear axle, the brakes, the bodies and their equipment, each shows the hand of the skilled designer by some new and valuable features.

The insurance companies have rated all fourteen models as Class "A" fire risks, because of the safety of their electrical and gasoline systems and have materially reduced the theft insurance rate. This means a big saving in insurance premiums over cars not so rated; it also indicates the close attention to detail that has been paid to these Buick cars for season of 1923.

When Buick reputation was first established many years ago, it was based upon the manifold merits of Buick four-cylinder cars. For many years thereafter, four-cylinder cars were the sole products of the Buick Motor Company, and during that period a vast reservoir of experience in the building of such cars was stored up.

That experience has borne its fruit in the fine Buick four-cylinder cars of today and it is with no small pride

that the Buick Motor Company places these five highly developed models in the hands of motorists.

Their leading characteristics may be summed up in a few words: They are extremely simple in design and operation; they are genuinely economical from every standpoint; they are both powerful and reliable; they are generous in comfort and in roominess and are finished and equipped throughout with the best of materials and workmanship.

In other words for the motorist who does not require a six-cylinder engine, the Buick Four leaves nothing to be desired.

As in the case of the six-cylinder models, the Buick four-cylinder cars have been redesigned this season, not merely in the sense of giving them a new appearance, but with the object of making them better and more efficient automobiles in every department if motoring service.

These changes begin with the frame, which has been entirely redesigned, and continue through the important mechanical units of the car, from an easier and simpler method of oiling the rocker arms to an improved

method of driving the speedometer.

The body larger and roomier, with lower lines and added grace of appearance. There are new and improved fenders, top, windshield, headlights, side curtains.

There is an improved spring suspension, new upholstery, improved dash equipment, new arrangement of seats, longer and lower steering column, and a number of other features that add materially to riding and driving comfort.

There is a transmission lock to prevent theft which reduces insurance rates materially. Other improvements place the Buick Fours in Class "A" as fire insurance risks, securing for the owner lower insurance rates.

These are part, and only part, of the changes that apply to all four-cylinder models. Each model has its own special improvements, because each has been redesigned as a unit.

FEW TIRE REPAIR MATERIAL NECESSARY.

A very small space in the tool box need be set aside for emergency equipment for tire repairs, according to Bismark Horstmann, dealer in the United States tires. There was a time

when a long list of materials and tools had to be carried to make repairs in case of puncture or blow-out but the advance in tire science has greatly reduced the number.

The only necessities today are: A cold patch kit for mending punctures without heat in ten minutes, a roll of first quality tire tape for tire or ignition trouble, a blow-out patch, a can of soapstone and a tire gauge for testing inflation. Every one of these things is essential and will always be found in the emergency kit of the careful car owner. With a good spare

or two there will seldom be any use for the items listed.

SPARE TIRES SHOULD BE USED OCCASIONALLY.

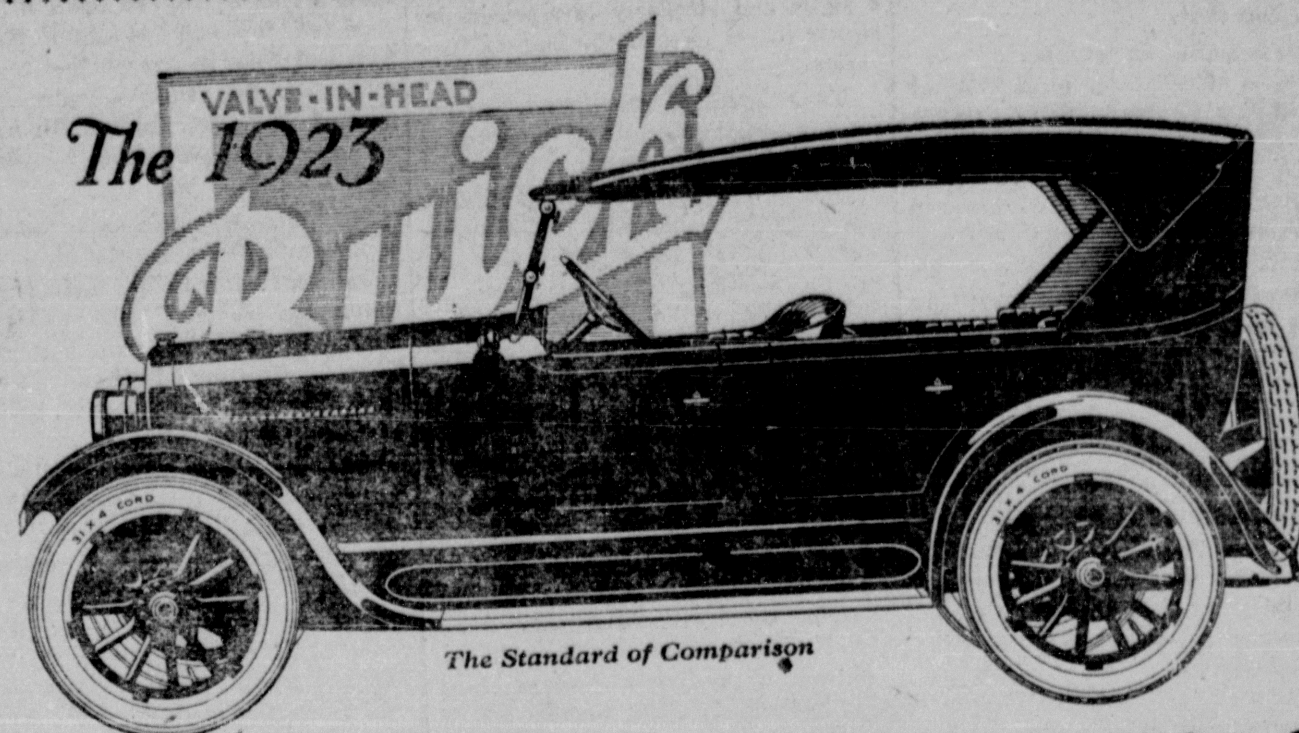

"It is a good thing to go to the trouble of using your spare tires a day or two at least once a month," is the advice of August Horstmann of Horstmann Bros., dealers in United States tires.

"We are informed that the highest authorities on rubber state that for some unknown reason rubber remains durable much longer if it is used

occasionally than if it remains unused month after month. When a tire doesn't get any use a deterioration sets in which proceeds much less rapidly if occasionally it gets a chance to have all its particles stirred up by being used a day or two.

"Speaking of spares, it might be well to reiterate the fact that spares will last better if they are covered up so that the bright sunlight does not strike them."

The Quinine That Does Not Affect The Head
Because of its tonic and laxative effect, LAXATIVE BROMO QUININE (Tablets) can be taken by anyone without causing nervousness or ringing in the head. F.W. GROVE'S signature on box. 30c

The Standard of Comparison

A "Four" That Sets a New Standard The 1923 Buick Four Touring—\$885

In beauty of appearance, dependability and economy of operation the Buick four-cylinder, five-passenger Touring has established an entirely new standard for four-cylinder cars.

Its low body with its clean, straight lines, accentuated by the high radiator and straight hood, give it a long, racy appearance that is new to cars of its class. Massive crown fenders add to this distinction, as do the snug-fitting, shapely top and the handsome drum-type head and cowl lamps.

And with this beauty has come a new riding comfort. The seats are deep and low with full leg room in both compartments. The steering column has been changed in position to increase driving ease and the gear shift lever has been raised to meet the driver's hand. A transmission lock, a windshield adjustable from the inside, and a transmission-driven speedometer likewise are among the many new refinements of this model.

Material changes also have been made in motor, chassis and body construction which contribute still further to the wonderful performance record characteristic of Buick cars for twenty years.

Distinctive Head Lamps

Drum-type head light and parking lamps are among the new refinements of all 1923 Buick models, both fours and sixes.

The Buick Line for 1923 comprises fourteen models: Fours—2 Pass. Roadster, \$865; 5 Pass. Touring, \$885; 3 Pass. Coupe, \$1175; 5 Pass. Sedan, \$1395; 6 Pass. Touring Sedan, \$1325. Sixes—2 Pass. Roadster, \$1175; 3 Pass. Touring, \$1495; 5 Pass. Touring Sedan, \$1935; 6 Pass. Touring, \$1985; 4 Pass. Coupe, \$1895; 7 Pass. Touring, \$1435; 7 Pass. Sedan, \$2195; Sport Roadster, \$1625; Sport Touring, \$1875. Prices f. o. b. Flint. Ask about the G. M. A. C. Purchase Plan, which provides for Deferred Payments.

Caterpillars give better service at lower cost

"It Costs No More to Buy a Kelly"

In speaking of Caterpillar Tires one of our customers recently said:

"They eliminate the use of chains, give more traction, cushion the truck better and wear more miles than any other tire I ever used."

Better traction, better cushioning for the truck and greater mileage—there is only one more thing you can ask of any tire and that is lower cost. Caterpillars will also give you that.

Their first cost is less than pneumatics and their final cost is less than ordinary solids.

Caterpillars are made in sizes suitable for trucks of every type and weight.

FOR SALE BY—

SCHILLER BUICK COMPANY
Cameron, Texas.

THE CHEVROLET UTILITY COUPE

DEMAND FOR THIS POPULAR MODEL HAS PROVED UNPRECEDENTED DEALERS' ORDERS FORCE INCREASED PRODUCTION.

Hail to the Utility Coupe—the Servant of They Who Serve! Here is a car designed for service and built for service. Here is a car that seems actually to take pleasure in rendering service. Stories from owners vouch for that.

Here too is a car that permits dealers to be of more service. Through their ability to supply transportation of such calibre as this, that serves so well, they are enhancing their reputations for service to their communities. And since "He profits most who serves best," as the Rotarians have it, Chevrolet dealers are profiting greatly thereby. (That is, those are who have seized this opportunity for service.)

Most Chevrolet dealers saw the possibilities for increased sales of a really popular new model when the Chevrolet Utility Coupe was introduced to the public and to them in April. Some did not. Some there were who wanted to sell sedans and four-passenger coupes, not realizing that that portion of the public which serves the rest, wanted real economical transportation, and wanted comfort and style as well. Some of those neglected to bring the Utility Coupe to the attention of They Who Serve. And because of this they lost many sales which otherwise they might have had.

But Chevrolet dealers as a whole are live, hustling, aggressive, and alert to opportunities. And to them the announcement of this strictly different new model, with a different appeal, a different look and a different feel to the man behind the wheel, was glad tidings. Immediately they realized that this model was just what a considerable portion of the public had long been waiting for. Immediately thereafter they began to let these people know. And before their sleeping brothers had retired for further slumbers, the wide-awake dealers had signatures on all the dot-

ted lines they could find.

Since that time, the public has shown a constantly increasing interest in this distinctly distinctive new model. Dealers everywhere have felt the demand. Orders have poured in to zone offices in constantly growing volume.

Other makers too have felt the same natural demand, because this model is something the public really wants. And one after the other leading manufacturers have announced similar designs and similarly low prices designed to get part of the market first catered to by Chevrolet.

When gold is discovered, or oil wells gush, those first on the ground reap the biggest rewards.

This is just as true in ordinary commercial channels. Chevrolet dealers, being among the first, if not the first, to offer the public a small, light, well-designed closed car for business purposes, have already reaped their reward in some measure. But there are further rewards for them, and also for those who still have an ambition to add to their bank accounts. All that is necessary is to let certain portions of the auto-traveling public know about this car especially designed for them, and the receiving teller will have to get busy with his adding machine.

Salesmen everywhere have long been looking for just such a job as this. And they have bought it in volume all over the country ever since it was announced. City salesmen like its neat, classy appearance. Country territory men like the way it delivers them in comfort and cleanliness to their roadside customers. It carries their samples as well as their toothbrush and pajamas, with plenty of room for a whole auto-trunkful of their line if they care to sell from stock. And there is room too for their golf sticks, to help them kill that awful Sunday when they can't get home. (Municipal golf links nearly everywhere make this quite worth while.)

Professional men and women are among the biggest buyers of this car. Doctors—all kinds: physicians, surgeons, osteopaths, chiropractors and dentists—are keen for it. If they don't need it to make calls, they like

it anyway for its dignified appearance and its comfort. Nurses, school teachers and club women also admire it and buy it for the same reasons. They want economical transportation, and want it quickly and cleanly.

It has been bought by many other classes, by country doctors and veterinary surgeons, by teachers in community schools in rural districts, by business men as a second car, so that wife might have the big car for social use during the day. Also because a small car is easier to park, and to find parking space for, in crowded city streets.

Retired farmers in small towns like it. Well-to-do farmers buy it for their wives to run to town in. The corn-fed farmer's daughter likes it too, and John has responded to a demand stronger than any created by any of our advertising. He had to, or watch Will go sailing by with his girl.

Here's a letter from a man with a wife and seven months old son. He bought a Utility Coupe for a vacation tour. He traveled 1100 miles and averaged 27 miles plus per gallon. There's Economical Transportation for you. And he says that, while he has owned several cars of other makes, he has awnedkes,Oralties,Umakes, he was surprised and highly pleased at the performance and riding qualities of a car so reasonably priced.

To sum it all up, men, the market is there, the car is there—forty ways. You are on the ground. And to you who haven't gotten in on the ground floor on this popular model, we can simply say this—you are overlooking a bet, one of the best bets that has been offered you in years.

TIRE PRICES NOW AT THE LOWEST POINT.

"So far as tires are concerned, the motorist is in clover these days," was the comment of Bismark Horstmann of Horstmann Bros., dealers in United States tires. "There never was a time when prices were so low. In the big slump in business that prevailed throughout the country about ten years ago prices got down nearly as low as they are today but you want to remember that the tires of ten years ago were nowhere near as good as the tires of today. When you buy a standard tire at the rock-bottom

prices of today you are getting about twice the value you used to get.

"It never pays to buy a tire that is not strictly high grade and it is especially poor judgment to do so today when the prices of the good ones are so low. No one knows how long these low prices are going to last but for the moment at least car owners have the advantage of a price decline that is unprecedented."

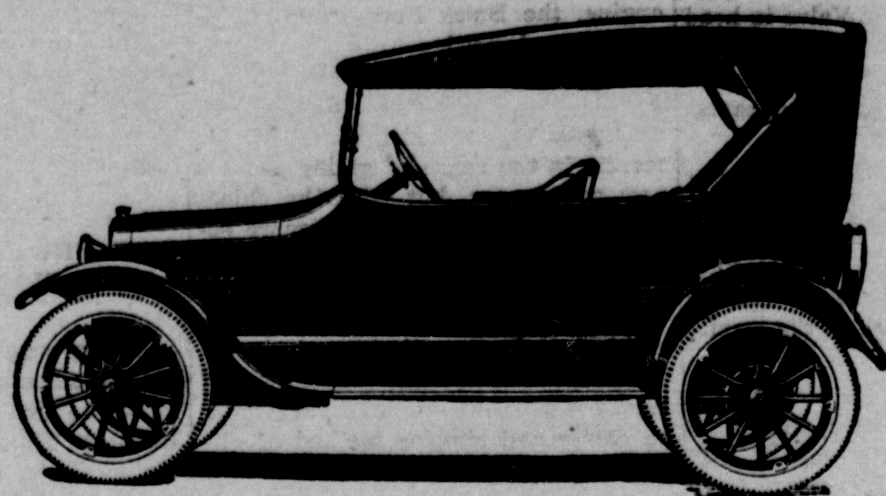

TUBES FOR FORD SIZE CORDS.

"Many Ford owners are equipping their cars with the new clincher cord tires made in Ford sizes," says August Hostmann, dealer in United States tires, "and they should always remember that it is wise to use a 31x4 tube with such tires."

"Experience with these 30x3 1-2 clincher cord tires has shown that the use of a 30x3 1-2 tube frequently re-

sults in tube chafing. Careful study of the cause of the trouble has brought out the fact that the use of the larger size tube will overcome the difficulty. The recommendation applies only to clincher cord tires and not to straight-side tires.

"Trouble does not always occur where the larger tube is not used but it occurs often enough to make it wise to follow the advice we have given."

Studebaker

**SPECIAL-SIX
TOURING**

**A NEW
LOW
PRICE**

WHEREVER you look, you will find protection against hard wear built into the Studebaker Special-Six and this quality of construction is just as exacting down under the surface as it is where you can see every detail.

The skillful workmanship and the fine materials of these hidden values are largely responsible for its long-lived dependable service.

Two important elements that make the Special-Six notable for fine performance and comparative freedom from repair, are the four-bearing crankshaft and the seven-inch frame with its five cross-members and sub-frame support-

ing the motor and the separate transmission.

The new price, \$1275, is the lowest for which the Special-Six Touring Car ever sold—and the quality is better than ever.

Price does not always determine value, but in the case of Studebaker it establishes the finest values in the market. The name Studebaker on your car insures satisfaction.

Come in or phone and let us give you a demonstration in the Special-Six. Drive it yourself. A ride will help you make up your mind. In public confidence and respect, the name Studebaker stands higher than ever.

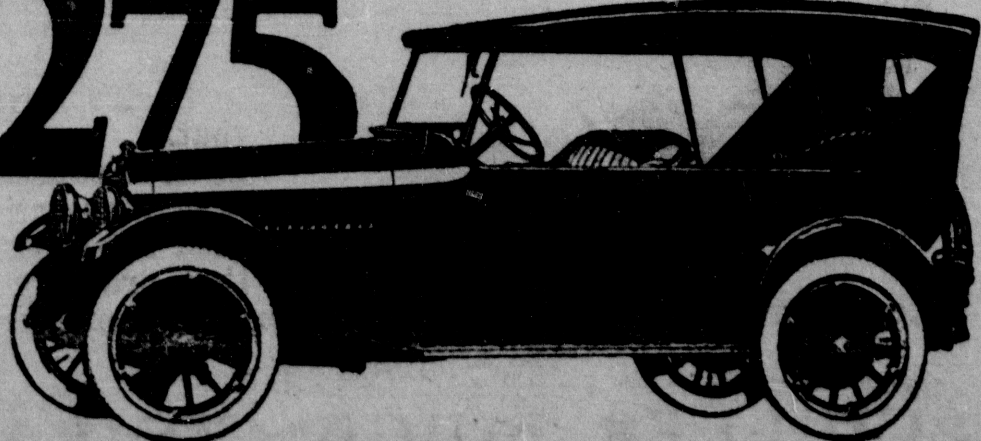

Rain-proof, one-piece windshield; cowl lights; cowl ventilator; massive head lamps; tonneau light with long extension cord; windshield wiper; eight-day clock; thief-proof transmission lock; tool compartment in left front door; outside and inside door handles.

POULTRY RAISERS SHOULD RID FLOCKS OF SCRUBS FOR BEST RESULTS AND PROFITS

F. W. KAZMEIER.

Texas, because of its extraordinary wonderful opportunities, is slated to remain one of the greatest poultry producing States in the Union. Its size is not the reason for this. Its large number of natural assets alone is the factor, that is the direct cause. Our people are more and more awakening to the great opportunities in farm poultry keeping and specialized poultry keeping. In connection with this it is well to remember that we are living in an age of specialization. More and more great poultry farms are being developed in Texas, as time goes on. Farm poultry keeping is rapidly developing as one of the great farm income. Remember that the Texas hen has already scratched her way ahead of the cow, hog and many of the other great agricultural lines. Few people even today know that the hen adds more to the agricultural wealth of the Texan than the cow, nevertheless its a fact. In Texas we have all the things necessary to make poultry keeping very profitable.

GROWTH OF INCUBATORS.

We are not very strong in favor of preaching a gospel of getting our people to grow more stuff and sell it for less. Such a policy is unprofitable for the farmer. We however, believe that we should try to discover means of accomplishing tasks cheaper and better. This is being done very rapidly each year, in the poultry industry. Take the question of incubation. Years ago a 1,000-egg incubator was a great machine. Today, here at home in our good old State of Texas, we have a large number of incubators that hold and hatch as many as 10,000 eggs and at one time. We have several individuals that operate a total incubator capacity in excess of 50,000 eggs every three weeks.

It is common for farmers to install 2,300 and 5,000 egg incubators. Some people, when they read this, will throw up their hands in horror and claim that this means nothing else than over-production. We do not believe that at all, in fact, we seriously doubt whether that means more chickens and eggs or not. We do know, however, that the hatching of eggs is gradually drifting into the hands of a few people that specialize in this work. We are not afraid that it can go any other way. It is a fact that these big incubators do the job cheaper and better. That fact alone is responsible for the drift of the work in that direction and their success. Whenever you have something you can do cheaper and better you have something worth while and useful. We believe that these mammoth incubators will not produce so many more chicks as they will replace the setting hens and small individual incubators.

ELIMINATE MIXED CHICKENS.

In Texas there are two important chapters in the poultry business that need attention and earnest consideration, if we hope to make our farm poultry flocks more profitable. The first one and the most important one is the question of eliminating inferior or the so-called mixed or mongrel mixed cross-bred, ducks mixture, crazy quilt, or just eating chickens, because they are money losers, they eat too much feed for what they return. A business man would call them a machine too out of date, or too inefficient. Before our farmers can hope to gain the maximum results from their poultry, they will have to realize the importance of the machine. A scrub hen is not bred for anything. The scrub hen is the greatest stumbling block in our way for State wide progress in poultry keeping. At this time we shall not have much more to say about the inferiority of the mongrel chicken, because many farmers are not prepared to make a change. That thing with feathers that looks like a chicken, but does not act like one, has won a place in the hearts of many of our farmers. The scrub fowl appears to be able to fake her way through life somehow. She had us fooled until we started keeping books and then, to make a long story short, we routed her to the soup bowl just as quickly as possible. We no longer have any use for her. She was a misfit. She was what poultry experts, agriculture agents home demonstration agents call a "cull."

CAN NOT CLASS EGGS.

Some may wonder why we have

stressed the mongrel hen so much in this article. The reason we have done this is because after she does lay an egg, we can not figure out a good way of selling it. She and her co-workers, when they work, lay such a varied product that it is impossible to grade or class it. The Texas Farm Bureau has on several occasions made a bold statement that it had completed plans of concentrating the egg product from 100,000 hens. That its plan was to sign up 100,000 hens in a given community. That is easy of accomplishment. Its agent found it possible to work the plans so far without a hitch. Then generally they would call in a few farmers to get a line upon the kind of product that these 100,000 hens would produce and that they would have to market. Here is where the trouble commenced. Can you imagine the motley product that 100,000 mongrel hens would produce. In view of these facts that big problem before fowls and replace them with standard all of us is to get rid of the mongrel bred stock, because these will produce a uniform product.

STANDARD BREEDS ADVOCATED

Sell off the mixed chickens and standardize the breeds as much as possible in a community. In doing this it is well to remember that it is in the breeding than in the breed. In California, where the most successful egg-marketing organization exists, the Leghorns predominate.

Establish a grade with respect to size, freshness, color and shape.

INFERTILE EGGS.

One other thing egg producers must learn to appreciate and that is that in Texas, a first market eggs, in warm weather must be infertile. The majority of Texas eggs, as produced on the farm are fertile, and it is impossible to get them to the market in good condition. A fertile egg will spoil in a temperature of 68 degrees or above. An infertile egg will keep even in a warm climate for a time. There can be no question but that it is necessary for our farmers to produce eggs as a rule that are infertile, so they may be shipped to market in a condition fit for human consumption. At the present Texas eggs are

a joke on the market. Those of you that doubt this statement, just try it by making a shipment to any of the Western, Northern or Eastern markets. All eggs marketed for table purposes should be infertile. By infertile eggs are meant those that are produced by hens in a flock wherein there is no male bird. After the breeding season all male birds should be taken away from the hens. Infertile eggs may be expected two weeks after the male birds have been removed. The removal of the males in no way influences the production. In Texas alone about \$1,000,000 in egg loss can be directly traced to the practice of letting the males run in the flock the entire year.

CLEAN EGGS.

In order to produce clean eggs, provide one nest for each five hens. The nesting material in the nest must be frequently cleaned. An egg with a soiled shell is not worth as much on the market. It is not considered good practice to wash eggs. Washed eggs do not bring the best price on the market. The eggs should be gahered at least twice a day in warm weather and three times is much better.

In Texas we must try to overcome the disadvantage of heat, in the best ways of doing this would be to place the eggs in a cool or cold place as soon as laid. To do this we recommend medium size ice boxes. If it is impossible to have ice boxes on each farm, which is probably the case at the present time, then we recommend the co-operative ice boxes, some would call them the neighborhood ice boxes. The eggs may at least be saved or stored in these boxes so they can be marketed once, or better, twice a week. Remember to deliver first class eggs it is necessary to get the eggs inside of these ice boxes as soon after they are laid as possible. We firmly believe that arrangements can be made to provide a community ice box large enough to keep the eggs from the neighborhood until they can be brought to market. The big thing to remember in producing first class eggs is that they should not be left out in the warm weather any length of time after they are laid. Each individual farmer may not feel able to keep an ice box and keep it full of ice. Some storage for the eggs in each neighborhood so they can be kept cool in warm weather is necessary if it is desired to deliver first class eggs without taking them to town every day. Such a community ice box would be found a great blessing in many other ways. It should be centrally located.

UNIFORMITY AND GRADING.

One of the greatest requirements of first class market eggs is uniformity in shape, size and color. One large,

small, odd-shaped or off-colored egg will affect the price on the entire dozen and maybe on the entire 30 dozen crate. Market white shelled eggs and brown-shelled eggs in separate packages. Doubtful eggs, or eggs with defective shells or eggs from a stolen nest should be kept for home consumption. Regarding size we can say that the majority of markets call for eggs weighing 24 ounces to the dozen or 45 pounds to the 30-dozen crate. They should be absolutely clean, strong and sound in shell with a small cell not over 3-16 of an inch in depth.

EGG CIRCLE EGGS.

In Texas about the only eggs that have any kind of a reputation are those produced by specialized poultry farms that candle grade, stamp and specially pack all of the eggs, and the so-called egg-circle eggs that are produced under the following rules:

1. Eggs from stolen nests must be used at home, or at least not marketed through this organization.
2. Eggs must be gathered twice daily and kept in a cold place. No eggs older than three days shall be delivered to the collector. Artificial eggs only may be used as nest eggs. Nests must be kept clean. Brood hens must be kept confined. Eggs must weigh at least not less than 23 ounces to the dozen and 24 is better.
3. With the exception of during the mating season all male birds must be removed from the females. In many egg circles only infertile eggs may be marketed and that is much the wisest plan.

4. Dirty eggs shall not be accepted. Eggs should not be washed. This means they must be clean when laid and also when delivered.

It is surprising how many people will try to really market eggs from stolen nests, dirty and small. We know of cases where eggs of this character were refused, only to be brought back the next time. It is absolutely necessary for the producers to lend their whole hearted support, and to help expose members that are not willing to abide by the rules under which the eggs are produced. We know of many cases where these egg-circles have built up a wonderful reputation for quality. It is needless to say they realize from five to ten cents more per dozen for their eggs than common eggs bring. A few of these eggs are found on the markets in nearly all of the larger cities in Texas.

HEAD STUFFED FROM CATARRH OR A COLD.

Says Cream Applied in Nostrils
Opens Air Passages Right up.

Instant relief—no waiting. Your

clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream

Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

I've Got
A FREE PUZZLE
FOR EVERYBODY
MAN, WOMAN AND CHILD
—SEND FOR IT—

Here's something for you—a new puzzle—and say, it's sure a dandy. Wish you could see the big stack I've got piled up here—looks like a mountain. There are thousands and thousands of them—all packed ready for me to put your name and address on, just as soon as you send them.

I want every boy and girl, every man and woman to have one of these Calumet Puzzles. It's more fun than a box of monkeys—the longer you work with this puzzle the more interested you become—the better you like it.

Send for one—see how long it takes you to solve it—spring it on some of your clever friends—see how fast their brains work—see if they can solve a real puzzle.

Don't wait—cut the coupon out of the paper right now; right away—fill in your name and address—send it with a two-cent stamp to help pay postage and mailing cost.

THE CALUMET KID:

Please send me one of the free Calumet Puzzles.

MAYFIELD LEAD CUT TO 52,358 IN FINAL COUNT

ANTI KLAN CANDIDATE INCREASE IN ALL OTHER RACES.

The Texas Election Bureau on Saturday night made its final report on returns from the run-off Democratic primary election held on August 26. At that time the bureau practically complete from 231 of the 243 organized counties that held the primary election and were very nearly complete from twelve other counties, in each of which only one or two small boxes had failed to report. The totals are:

U. S. Senator—Earle B. Mayfield 317,591, Ferguson 265,233. Total votes for Senator 582,824. Mayfield's majority 52,358.

Lieutenant Governor—Davidson 338,997, Billie Mayfield 227,663. Total votes for Lieutenant Governor 566,660. Davidson's majority 111,334.

State Treasurer—Terrell 306,213, Garrett 234,533. Total votes for Treasurer 540,746. Terrell's majority 71,680.

Superintendent of Public Instruction—Marrs 286,674, Bentley 265,665. Total votes for Superintendent 552,339. Marrs majority 21,009.

At 12:30 a. m. Sunday, August 27, the election bureau's figures showed a majority of 67,947 for Earle Mayfield in the returns then compiled. On Sunday afternoon this lead was cut down, partly because of the discovery of an error and partly by new returns, so that the Sunday night total showed a lead of only 50,991 for the successful candidate for Senator.

From that time forward, as the back country was heard from, Earle Mayfield's majority shrunk, but the other three successful candidates—Davidson, Terrell and Marrs—gained beyond the proportions of their original majorities.

The vote in the first primary election, July 22, as to the four officers according to the complete unofficial returns from only 236 of the counties:

Senator—Mayfield, unofficial 163,910, official 153,539; Ferguson, unofficial 131,308, official 127,071; Culberson, unofficial 103,999, official 99,635; Thomas, unofficial 89,682, official 88,026; Ousley, unofficial 63,295, official 62,451; Henry, unofficial 44,439, official 41,567; Strong, official 1,085 (had withdrawn).

Lieutenant Governor—Billie Mayfield, unofficial 201,394, official 192,777; Davidson, unofficial 175,633, official 169,412; Johnson, unofficial 85,969, official 84,972; Edmondson, unofficial 67,659, official 66,411; Jamison, unofficial 33,075, official 33,156.

Treasurer—Terrell, unofficial 162,128, official 156,778; Garrett, unofficial 129,170, official 126,267; Carroll, unofficial 69,309, official 67,651;

Christian, unofficial 56,451, official 55,266; Kerr, unofficial 52,844, official 49,233; Tension, unofficial 37,124, official 35,652; Kirgan, unofficial 28,761, official 26,608.

On the office of Lieutenant Governor 563,730 votes were counted for all candidates in the first primary election, and 566,660 in the second. In the second primary election Davidson, who lead the ticket, gained 163,364 votes, or 93 per cent over his vote in the first primary election. Billie Mayfield gained 26,269 votes or 13 per cent.

For the purpose of further comparison, the votes in the senatorial race in 1916 are given:

First Primary Election 1916—Colquitt 119,598, Culberson 87,241, Brooks 78,641, Campbell 65,721, Henry 37,726, Davis 9,994, Riddle (had withdrawn) 335.

Second Primary Election 1916—Culberson 163,182, Colquitt 94,098.

The twelve incomplete counties are: Andrews, Briscoe, Burnet, Cherokee, Crosby, Dallam, Howard, Hutchinson, Marion, Moore, Sabine, San Jacinto. Probably there are less than 3,000 votes unaccounted for in these totals, as the incomplete counties in most instances lack but one or two boxes of being complete.

The following counties held no election: Kerr, King, Goliad, Jim Hogg, McMullen, Reagan, Real and Terrell.

DISTRICT RACES.
Results in district races follow:
Congress, Fourteenth District: Harry Hertzberg, 19,969; John H. Cunningham, 15,395. One box in district unreported.

Congress, Seventeenth District: Thomas L. Blanton, 32,660; Oscar Calloway, 18,950. Burnet only county incomplete.

Court of Civil Appeals, Third District: M. B. Blair, 42,296; J. K. Baker, 40,119. Burnet only county incomplete.

Court of Civil Appeals, Fifth District: Ben L. Jones, 47,904; T. M. Taylor, 46,078. Delta only county incomplete.

State Senate, Eighteenth District: J. E. Clark, 8,074; Leonard Tillotson, 7,065.

State Senator, Twenty-third District: Archer Parr, 7,310; Asher R. Smith, 5,511. Jim Wells County unreported.

State Senate, Twenty-fourth District: T. H. Ridgeway, 11,068; W. A. Black, 10,072.

Grove's Tasteless chill Tonic
restores vitality and energy by purifying and enriching the blood. You can soon feel its strength.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.
F. J. CHENEY & CO., Toledo, Ohio.
Sold by Druggists, etc.
Hall's Family Pills for constipation.

GOLD DAYS OF DAWSON RECUR AGAIN IN KOSSE

(By Gene Sullivan.)
Kosse bound? Yep, that's where they are all heading for, they are coming in on trains by autos and prairie schooners, walking and running every method of locomotion is being used to get there, the attraction, why—another wildcat blew in unexpected and opened up an oil field which is believed will eclipse the Mexia field.

Something over a week ago the little town of Kosse with a population of around 1000 inhabitants grew to a city with a population of 15,000 souls over night, the unexpected mob blew in such a hurry that the citizens of Kosse were swept off their feet, like a candidate in a general election is swept into office, unprepared, the merchants soon found themselves unable to accommodate the vast throng. The S. O. S. was sent out to the surrounding territory, by telegraph telephone and messengers and all the gentry headed that way.

Hamberger Bill and Coney Island Lizz picked up stakes and cranked the old bus and drive up with a fresh supply of eats that tickled the palate of the hungry lease hounds, eating joints sprang up in door ways and alleys, sleeping tents and juice joints did a rushing business, while the farmers stopped picking cotton to sell

a lease on the old homestead that had advanced in price overnight from \$7.50 in fee to \$1500 per acre for a common oil lease.

From a modest deposit of \$100,000 in the bank to over a million dollars, with the streets crowded automobiles parked for blocks around the town and thousands of people milling around, eager to grab off the easy money that is in sight in a jam of this sort, where the dollar has no value. Curb brokers dealing in leasing town lots at enormous prices.

Lady brokers in silks and satins. Where the high brow rubs elbows with the roughneck, every one seems to be crazy, nervous anxious, big deals going over which involves millions, all caused from the drilling in of a 12,000 barrel gusher by that famous old wildcatter Col. Humphreys of Mexia. To get the thrill one has to see.

All the old time oil field characters are there Old Mother Humphreys known to all the oil clan in every field is serving her famous chicken dinners A la Table D' Hote. Men who have made millions in oil leases, people from every walk in life. Oil exchanges are being opened up. Town lots are being prepared for the drilling of a well, stock is being sold to the unwary, money is so plentiful that any old business reaps a fortune in a short time. Dericks are springing up everywhere. Kosse is on the lips of men everywhere as the latest oil find.

Milam county is next so the prediction runs. Lets be prepared.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS chill Tonic given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

Sell it through the columns of the Herald.

A TONIC

Grove's Tasteless chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

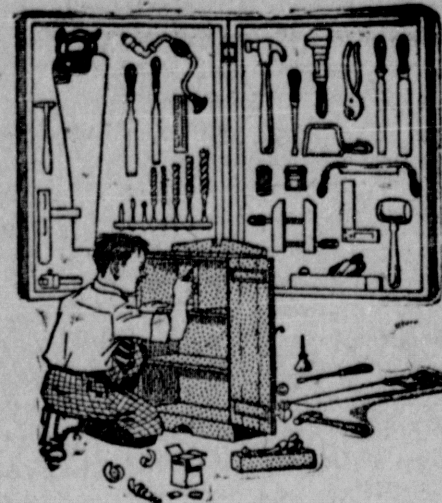

Grove's Tasteless chill Tonic is simply Iron and Quinine suspended in syrup. So pleasant even children like it. The blood needs QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and Grip germs by its Strengthening, Invigorating Effect. 75c.

Advertising is not an expense, it's an investment.

"Strong and Well"

"I WISH you could know how much I am improved since taking the Cardui," writes Mrs. Nannie Brown, of Black Rock, Ark. "You wouldn't know me for the same weak invalid I was before I took it. At my... I had to keep off my feet or I would fall. I couldn't do my housework, and just got where I'd most as lief be dead as living. Some one told me husband of Cardui. He got

it for me and I took three bottles before I stopped—then off and on for the last three years just as a tonic. I saw a decided improvement after my first bottle. I used the three, and was able to do my work with ease, and now I sew for my family and for others. I am feeling fine, and strong and well." Take Cardui! It may be just the medicine you need.

CARDUI
The Woman's Tonic

Hot Water Each Morning Puts Roses in Your Cheeks

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of combustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire

alimentary tract, before putting more food into the stomach.

Girls and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Women who desire to enhance the beauty of their complexion should just try this for a week and notice results.

GRAND JURY FOR FALL TERM COURT CONVENES MONDAY

CHARGED BY JUDGE WATSON
TO INVESTIGATE LAW VIOLATIONS
IN MILAM CO.

The grand jury for the Fall term of court convened in Cameron Monday morning and after being impaneled were charged by Judge John Watson to investigate thoroughly law violations in Milam county.

The Judge mentioned no particular line of investigation for the guidance of the grand jury but gave his instructions along general lines.

The following is the personnel of the grand jury: P. S. Graves, foreman; A. C. Freeman, George T. Graves, H. P. McKinney, John Henry Thomas, Lon Hudson, L. W. Sledge, A. W. Mowdy, A. E. McLendon, R. B. Rylander, J. D. Dobbins, W. W. Clark.

The court has convened for the fall term but no cases have been set for the term. The appearance docket was called Tuesday morning.

MRS. LOUISE MOODY.

On Saturday, August 26th, just as the sun was sinking in the western horizon, the beautiful spirit of Mrs. Louise Moody passed out into the Life Eternal, at the home place five miles north of Rockdale.

Mrs. Moody had been in delicate health for some time, but was active up to three weeks ago when the progress of the malady that resulted in

her death confined her to her home. Although everything possible was done for her, death gained the mastery.

Mrs. Moody, whose maiden name was Louise Kuhn, was born in Michigan City, Indiana, April 28, 1849. On January 9th, 1886, she was united in marriage to Oscar L. Moody, also a native of Michigan City, who died suddenly while attending to business in Rockdale on September 13, 1918.

Deceased had been a resident of Milam county for 43 years and was a consistent member of the Baptist church for 42 years. Far from the home and kindred of her youth and when bereft of husband and two children, she faltered not, but bore herself cheerfully, and dwelt at the home place surrounded by her children and the people she loved.

Funeral services were held Sunday afternoon at 5 o'clock at the Murray cemetery where interment was made at the side of her departed loved ones. Friends from Rockdale united with relatives and friends of the community in paying their last sad tribute and the flowers which were sent bore testimony in their profusion and beauty to the regard in which she was held. Rev. W. E. Copeland long time friend of the family, assisted by layman E. A. Camp, delivered the eloquent funeral address, expressive of the love and reverence in which Mrs. Moody was held.

Deceased was the mother of eighteen children: Albert Moody, who died September 14th, 1910; Clara Banzhaf, wife of Milam county Agricultural Agent, George Banzhaf, she dying November 16th, 1919; Mrs. Cora Saunders, Dallas; Mrs. Lotta Jacob, Houston; O. L. Moody, Jr., Robstown; Wallace Moody, Cameron; Harry Moody, Rockdale; Mrs. Josephine Mackey, Rockdale. One sister

and two brothers also survive: Mrs. Cena, Currey, Chicago, Jule and Geo. Kuhn, of Michigan City, Indiana. Several grand children survive, among them Miss Lottie Banzhaf, a former member of the Rockdale High School faculty, and Clayton Banzhaf, who saw service in the A. E. F. during the World War.

The active pall bearers were: Hood Caldwell, O. K. Phillips, Lon Hudson, B. W. Baldridge, E. A. Camp and W. H. Fletcher.—Rockdale Reporter.

JAMES LLOYD HAIRSTON.

After an illness of malarial fever of two weeks duration, James Lloyd Hairston died at the home of his father, R. A. (Dick) Hairston, in Milano Sunday, August 27th at 6 a. m. Interment at Sand Grove cemetery at 11:20 a. m. The funeral services were conducted by Rev. Shelby, pastor of the Milano Baptist church.

He was the only single child of Mr. and Mrs. Hairston, and was 25 years of age.

He was stationed at Camp Travis during the world war and with that exception was never away from home

for any length of time, always being a very dutiful and home-loving son. He was a member of the W. O. W. Lodge with membership at Milano.

He leaves father, mother, one brother, Harvey, of Dallas, and a sister, Mrs. Elsie Grabener of Sand Grove community, besides a number of other relatives to mourn their loss.

The Reporter joins with the friends of the family in extending sympathy to the bereaved ones.—Rockdale Reporter.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 80c per bottle.

FOR SALE — Home on Hwy 100. Owner Mr. W. A. Gillon, agent J. D. Hefley. Price \$6000.

Bring us your cotton checks we are prepared to handle them.

Ten Young Texans Sail For Foreign Mission Service In Distant Lands

Mr. and Mrs. Paul C. Porter and young daughter (1) of Waco, who will do educational work at Sao Paulo, Brazil; Miss Josephine Ward (2), Austin, who will do educational work in Kaifeng, China; Miss Louise Willis (3), Waco, who will do educational work in Kaifeng, China; Miss Lois Howard (4), of Brownwood, who goes to North China; Miss Jennie L. Swearingen (5), Bellville, who will do educational work at Bellohorizonte, Brazil; Rev. J. R. Mashburn (6), DeKalb, who will do evangelistic work in China; Dr. and Mrs. W. P. Meredith and young daughter (7), of Pecos, who will do medical work at Ogbomoso, Nigeria, Africa; Miss Nell Hall (8), Hightower, who will teach home economics in Kaifeng, China.

WITH the sending out this season of fifty new missionaries by the Foreign Mission Board of the Southern Baptist Convention, 250 new workers have been sent to foreign fields during the 75 Million Campaign, or one-half the goal that was set in the number of workers to be provided during that movement. It is anticipated the remaining 250 will go out during the remainder of the Campaign period that will expire in December, 1924. The workers going out this season will enter the fields of China, Japan, Africa, Palestine, Brazil, Argentina, Uruguay, Chile and Mexico.

Inasmuch as the largest missionary effort of the denomination is centered in the Orient, the larger portion of the workers sailed from Seattle Saturday, September 2, on the Admiral Liner President Jackson for stations in China and Japan. The missionaries for fields on other continents sail from New York on various lines and some of them will not depart until September 30.

Varied Types Workers Sent

Included in the list of missionaries are preachers and evangelists, teachers, doctors, nurses, one architect, one expert in domestic science, and special workers among women and children. William Earle Hines of Spartanburg, S. C., who goes to Shanghai to supervise the construction of all missionary buildings in China, enjoys the

distinction of being the first architect ever sent out by the Foreign Mission Board, and his appointment indicates the vast extent of the Southern Baptist work in that country. More than half of the total number of missionaries in the employ of this board are located in China, where the results of their labors are very gratifying to the officers of the Board.

Large interest centers, also, in the launching of an intensive missionary work in Palestine, to which country there go Rev. and Mrs. Fred Bunyan Pearson of Moulton, Ala., and Rev. and Mrs. J. Wash Watts, of Laurens, S. C. Some native missionaries are already at work in Palestine, and the outlook there is considered very encouraging, despite the present complicated political and racial controversies.

Campaign Brings Enlargement

In addition to the sending out of 250 new workers to foreign fields the 75 Million Campaign has made it possible to increase the number of native workers from 771 to 1172, to practically double the missionary equipment in the older fields of China, Japan, Africa, Italy, Brazil, Argentina, Chile, Uruguay and Mexico, and to enter the new fields of Spain, Jugo-Slavia, Hungary, Roumania, Southern Russia, Palestine and Siberia. Southern Baptists now have a practically unbroken string of mission fields encircling the globe, and a possible mission audience

of 900,000,000 people, or one-half the total population of the globe.

And the results on the field have kept pace with the larger investment in the work and number of workers. Since the outset of the Campaign the Foreign Mission Board reports the organization of 117 new churches, 21,723 baptisms, 211 new Sunday schools with a gain of 17,576 pupils, native contributions to Baptist work of \$1,003,390.68, and 529,642 treatments administered by missionary physicians. Churches on the foreign fields, exclusive of the new territory in Europe and the Near East, now number 622 with 64,251 members. There are also 971 Sunday schools with 53,691 pupils, and 694 mission schools of all grades with 26,507 students.

Expense Rate Is Low

More than \$6,250,000 net has gone from the Campaign into foreign mission work, and so economically have these funds been handled, the Board reports, that 96.24 cents out of every dollar has actually reached the foreign fields, only 3.74 cents out of each dollar being required to care for the total cost of administration. But with these larger receipts and economical administration the Board is unable to meet the demands upon it, and at its last annual meeting it was compelled to reduce the requests of the missionaries on the field for appropriations by more than \$1,000,000.

KOSSE OPERATORS WATCHING MILAM COUNTY OIL AREA

MINERVA FIELD IS AROUND
300 BARRELS A DAY
NOW.

Operators in the Kosse district now have their eyes on Milam County, and are watching the developments here. Besides the big production that the Milam county field is yielding, which has attracted the attention of some of the larger companies, much interest is being paid to the Guiberson deep test, while it is the contention of the oil fraternity that this county has a separate and distinct structure, from the Limestone county area, the consensus of opinion is that the development is coming this way and new gusher fields will be opened up here. The Denny-Mexia well being drilled 5 miles south of the Humphreys-Jones number one has reached the interesting depth around 3600 feet and the well is making some gas, drilling is slow, but the well is expected in any time, should this well become a producer, Milam county will get a play which will out do any thing that has taken place in the last year. The Guiberson well is said to be drilling around 1200 feet, and something should pop very soon that will make things interesting in this territory. While much interest is being manifested in this well, more than a passing interest is had in the number one well, which is said will be drilled deeper, when the number two well is completed to the shallow depths, the operators expect to uncover a heavy gas flow and probably some oil, if a good rock pressure is had, number one well will be drilled with the fuel.

Good wells continue to be drilled in the shallow pool, Hefley, McIntosh and Thomas, have a 15 barrel well in their number three McClellan, while the Tidal Oil Company in their number 7 Rountree, is estimated will make when completed around 50 barrels per day, the well is shut down waiting for the cement to set around the casing. The production of the field is around 300 barrels daily.

YOUNG FRIENDS, LISTEN!

The training received in College will measure your business success. Therefore it behoves you to think carefully and choose wisely the College in which you are to receive your training. The College that has stood as a leader in educating men and women for big business for more than twenty years, a College with an international reputation, students from thirty-nine states and seven foreign countries, more than 3600 enrollments annually for the last five years, with successful business men at the head of it, is the one for you to attend.

The Tyler Commercial College of Tyler, Texas, America's largest and best known business training university, has made itself prominent by turning out graduates in its seven different courses, containing over 37 subjects, who have achieved only success by prominence, some as Presidents of large banks, wholesale houses oil companies, etc., at salaries as high as \$50,000 a year.

Our own Employment Department secures good positions with successful concerns for graduates. We are receiving daily, many calls.

With our own copy-righted texts and systems, successful management and the most thorough, practical teachers to be had, we give a most efficient training, in the shortest time possible.

Under our contract system with private families, boarding expenses are exceptionally low. Our great saving in time required for graduation thru the use of our special systems and our low living costs, will save you one-half the usual cost of equipping yourself for business life, and give you a more thorough training than other business colleges can possibly give with their limited equipment and obsolete systems. Being widely and favorably known among business men everywhere we give you prestige and influence with your diploma.

Fill in coupon and mail to Tyler Commercial College, Tyler, Texas, for large free catalogue.

A WIND AND SAND STORM HERE

A wind and sand storm of considerable proportions visited Thorndale about five-thirty Saturday afternoon, during which time few people could master courage to remain on the streets. Many people had been in town during the afternoon and the greater portion of these were either caught on the road home or in town by the storm. A light rain followed the wind but this was insignificant and only served to settle the dust. While the winds reached a velocity of something near thirty or forty miles an hour (estimated of course), it is not thought that great damage was done the open cotton in the fields, due to the fact, it is said, that the wind preceded the rain. If the operation had been reversed great damage would have resulted, it is claimed.—Thorndale Champion.

Guy Behringer and family left Monday for Cameron where he goes to accept a position with a large dry goods firm in that city. Mr. Behringer is one of Thorndale's best retail salesmen and has many friends here who are pleased to know that he is connecting up with a large firm with greater opportunities for advancement and at the same time at an advance in salary over his present position here. Mr. Behringer came to Thorndale three years ago from Waco and accepted a position with Mr. Im. Rudi, a groceryman, and later left Mr. Rudi and accepted the management of the dry goods department of the Thorndale Dry Goods and Grocery Company where he remained for sometime. When he resigned this position he again joined Mr. Rudi's sales force and remained there until last Monday when he left for Cameron. The Champion joins his many friends in wishing for him the realization of his greatest ambition in his chosen work.—Thorndale Champion.

NOTICE.

This is to give notice to the public that cotton receipt No. 10684 issued in the name of Fred Martinez on the 26th day of August 1922, by the Cameron Compress Company, for one bale of cotton delivered by him to that Company, has been lost, and that the undersigned is the legal owner and holder of said cotton, and the public is warned not to accept said receipt or to deal with same in the hands of any other person.

G. B. Taylor.

NOTICE.

18 2t By R. D. Brown, Sec'y.

SEE CAMERON FIRST.

In order that the citizens may more thoroughly appreciate the many advantages Cameron has in the way of outdoor places the Herald wishes to call the attention of the public to the improvements being made in the Wilson-Ledbetter Park and to suggest that during the motoring hours on week days and on Sunday the folks drive through this future playground of Central Texas. Underbrush is being cut away and a road has been laid out through the park so that it is now possible to see the many advantages of this scenic spot. The park now is a desirable picnic ground and the city invites a wide use of this park. Attention to this park was first attracted by tourist camping grounds. Now that the fair is to be held in this park the clearing away of underbrush brings the realization that Cameron folks have been overlooking one of the beauty spots of Texas. Drive through this park and appreciate its value. See Cameron First.

Piles Cured in 6 to 14 Days

STOP THAT ACHE!

Don't worry and complain about a bad back. Get rid of that pain and

IF KIDNEYS AND BLADDER BOTHER

Take a glass of Salts to flush out your kidneys and neutralize irritating acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in avoiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of *Chas. H. Fletcher* on the wrapper all these years just to protect the coming generations. Do not be deceived. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

Never attempt to relieve your baby with a remedy that you would use for yourself.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. lameless! Use Doan's Kidney Pills. Many Cameron people have used them and know how effective they are. Ask you neighbor! Here's an Cameron case.

Mrs. S. A. Gjedde, gave the following statement June 26, 1915: "I am glad to endorse Doan's Kidney Pills for they have done me lots of good. My back ached constantly and I wasn't able to do my work. I was down in bed part of the time and suffered constantly. My head ached and I could hardly see from dizziness. Rheumatic pains darted through my back and sides. My kidneys acted too often and most of the time not freely enough. I was caused much pain and there were other signs of kidney weakness. I was in bad condition when I read about Doan's Kidney Pills and sent to the City Drug Store for them. Two boxes of Doan's put my kidneys in good order and rid me of the pains in my back."

On July 2, 1919, Mrs. Gjeddie added: "All I have previously said in

recommendation of Doan's Kidney Pills, I gladly confirm. I feel I owe my good health in my advanced years

to Doan's Kidney Pills." 60c. at all dealers. Forster-Milburn Co., Frgs., Buffalo, N. Y. (Adv.)

CELEBRATION

THURSDAY

Sept. 14

AT CAMERON

The three Klans of Gause, Rockdale and Cameron will hold a public naturalization ceremony and public speaking followed by a barbecue for all Klansmen present in a pasture adjoining the City of Cameron. The public is invited to attend this ceremony and the friends of the Klan and Klansmen are especially requested to be present. It is expected that

200 Candidates

Will be on hand to be naturalized on this occasion. There will be ample parking space for all who come in cars, and a clear point of observation has been provided for a large crowd. This will be interesting.

Don't Miss It!

Come and see this ceremony and learn what Klansmen stand for.

JUST LIFE—THREE

LITTLE PLANTS.

By Phebe K. Warner.

One day last Spring one of our neighbors gave us three little plants. All came from the same garden on the same day and were the same kind of plants. We planted one by the side of the road where it got just what nature happened to give it. Another was planted on the shady side of the house, where it would have all the water that fell on that side of the house. The third one was planted in the center of the backyard, where the waste water from the kitchen sink could reach it every day. And now it is time for maturity, and what is the result?

The flower by the house got too much water and not enough sunshine. It rained so much the first month that it was almost drowned out. Then the dry weather came and the flower just stood there barely alive all summer. Today it is a dwarfed flowerless stem. No beauty; no pleasure to anybody, but it has had the same time and the same work spent upon it. The flower by the road has had all the sunshine of the whole summer, but it did not get enough rain to balance the sunshine, and it is dried up and almost dead just when it should be living in its glory. The flower in the backyard that was fed by the waste water from the kitchen every day, received the same number of sunbeams as the one by the road, but it is a thing of beauty. It is literally loaded with perfect blooms. It is fulfilling its complete mission in this world, giving beauty to everyone it meets and sending its fragrance out into the whole yard. It is a joy to the whole family.

Why the difference? Simply this. The flower by the house had too much water and not enough sunshine to fulfill its mission in life. The one by the road had enough sunshine, but not enough rain to balance the growing possibilities of its life. The third flower grew perfectly by utilizing the waste water. It did more. It prevented an ugly, unsanitary place in the yard by absorbing the waste water. And now instead of an empty, ugly, unhealthy puddle of stagnant water all through the long, lonesome, cloudy, frosty autumn days there is something beautiful to look at through our kitchen window as we wash dishes three times a day.

Yesterday we talked about juvenile crime. Can you see any analogy between the story of the three plants and juvenile crime. What is the result when a child has too much of one thing no matter how essential that one thing is to its life, and not enough of another? What is the result when a child's life is tossed by fate to the side of the great broad road of mankind to live and grow by chance with no one to care for it; with no one to see that the needs of its life are balanced; with no one to provide a way for it to have enough of one thing to keep the other part of its nature growing? But it is the fate of the third plant that we would have you think about most. What saved it? What brought its life to perfect maturity? What enabled it to fulfill its mission in this world? Was it not what otherwise would have been wasted?

Why have we so many dwarfed and fruitless lives in the world today? Why are there so many unhappy, mis-

erable and withered men and women dragging through life without a ray of hope or joy in their lives just when they should be enjoying the glory of a beautiful, fruitful life? And why have we so many juvenile criminals in our land at this hour? Is it not because some have had too much joy and money and pleasure in their lives and others have not had enough? And do you not think if the time and money that is being wasted in America today could be utilized to provide the kind of schools and pleasures and environment necessary to a balanced life for all the children that we would not only save and bring to a successful maturity millions of lives in the future, but by using the waste money and time for those who need it we would also save the lives of these that are being wrecked by waste?

But it is not alone money and time that is needed. The other day a teacher said to a motherless boy, "Son, I'm proud of your work this year." The answer was, "You are the first man that ever said that to me." The sunshine of the soul is a kind word once in a while. And the moisture that makes a boy's life grow is a teardrop of sympathy now and then when his heart is cold and hungry. If we would give a little bit of love to the boys and girls that we are wasting on our own selfish selves, it might fill a deep vacuum in their lives, start their hopes to growing and save us from some tragedy. Why, a lot of folks give more love to dogs than boys. What kind of a world would this be if all our waste were utilized to make better boys and girls?

CHARLES GARNER SUC-
CUMBS TO INJURIES.

Word was received here early Wednesday morning to the effect that Charlie Garner had succumbed to injuries received Tuesday when a Fordson Tarector turned turtle with him while plowing on the farm of A. M. Camp, near San Gabriel.

Details of the accident are very meager at this writing, but it seems that he was at the time of the accident engaged in operating a tractor plow, using a Fordson tractor for power, and by some means the tractor became overbalanced and fell on Mr. Garner, seriously injuring him. Dr. Wm. Terry, of Thorndale, was called and found that two ribs had

been torn from their union with the spinal column and severe internal injuries had been sustained, hemorrhage resulting. He was rushed to a hospital at Taylor where all that could have been done for him was done, but to no avail, and Mr. Garner died sometime during Tuesday night.

Mr. Garner is a grandson of the late Jacob Isaacs, and Mr. Joe Isaacs, an uncle, was with him at the time of the accident. He has many relatives and friends to whom the Champion extends condolence—Thorndale Champion.

"I AM THE FARMER."

"I am the provider for all mankind. Upon me every human being constantly depends.

"A world itself is builded upon my toil, my products, my honesty.

"Because of my industry, America, my country, leads the world. Her prosperity is maintained by me; her great commerce is the work of my good hands; her 'balance of trade' springs from the furrows of my farm.

"My reaper brings food for today; my plow holds promise for tomorrow.

"In war I am absolute; in peace I am indispensable—my country's surest defense and constant reliance.

"I am the very soul of America, the hope of a race, the balance wheel of civilization.

"When I prosper, men are happy, when I fail all the world suffers.

"I live with nature, walk in the green fields under the golden sunlight, out in the great alone where brain and brawn and toil supply mankind's primary need. And I try to do my humble part to carry out the great plan of God.

"Even the birds are my companions; they greet me with a symphony at the new day's dawn and chum with me till the evening prayer is said.

"If it were not for me the treasures of the earth would remain securely locked; the granaries would be useless frames; man himself would be doomed speedily to extinction or decay.

"Through me is produced the energy that maintains the spark of life.

"I rise with the early dawn and retire when the 'chores' of the world are done.

"I am your friend.

"I am the Farmer."

YOU CAN'T TRUST

CALOMEL AT ALL.

It's Quicksilver, Salivates, causes Rheumatism and Bone Decay.

The next dose of calomel you take may salivate you. It may shock your liver or start bone necrosis. Calomel is dangerous. It is mercury, quicksilver. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It can not be trusted any more than a leopard or a wild-cat. Take Dodson's Liver Tone which straightens you right up and makes you feel fine. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate. (Adv)

OLD-TIME COLD CURE— DRINK HOT TEA!

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB RHEUMATISM FROM STIFF ACHING JOINTS

Rub Soreness from joints and muscles with a small trial bottle of old St. Jacobs Oil

Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain. "St. Jacobs Oil" is a harmless rheumatism cure which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops eczema, lumbago, backache, neuralgia.

Linger up! Get a 25 cent bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

MELODY ORCHESTRA TO PLAY AGAIN

SECOND SEASON PLANS MADE
BY ORGANIZATION OF
THIS CITY.

At a meeting of the executive committee of the Medsker's Melody Orchestra Saturday evening plans were formulated for the establishment of a permanent orchestra and details worked out for a series of concerts to be given this year similar to those rendered last season.

The extraordinary success of this musical organization composed last year of about twenty members under the efficient direction of P. H. Medsker, is well known throughout the state. Several of the state papers and periodicals carried news items and photographs of this aggregation of local talent. Each of the towns in which concerts were given last winter have entered request for return engagements. Music lovers of Cameron will be glad to know that this orchestra will play each Sunday evening at the Methodist Church here and that at least one big concert for the public will be given here during the season.

Most of last year's members have entered applications for places this year and these with quite a few new prospects will materially strengthen a successful year even better than was the organization making the outlook enjoyed last fall.

Among the members, the following musicians will no doubt be found when the rehearsals begin: Mrs. D. W. Largent, Mack Harvey, Mrs. Alex Triggs, Paul H. Medsker, Harleigh McGregor, Olive Henderson, Glennie Stafford, Ola McLearn, Jake Posey, Clarence Posey, A. Robinett, Emory Gunn and Irvin N. Clary.

HENRY RESIGNS AS MEMBER OF KLAN.

Waco, Texas, Sept. 1.—Robert L. Henry, former Texas Congressman and defeated candidate for the nomination as United States Senator at the July Democratic primary, today announced his resignation as a member of the Ku Klux Klan. He lauds the principles of the Klan in his announcement, but said he declines to affiliate with the organization "on account of the conduct of the high officials of the order in power at Atlanta, Ga., and in Texas."

In the recent Senatorial campaign the Klan was generally understood to have supported Earle B. Mayfield, who won the nomination. Henry was an avowed member of the Klan. Mayfield's political opponents charged him with membership in the organization but he did not commit himself.

During the campaign friends of Henry asserted the Klan membership was acting upon orders from "higher ups" in not supporting Henry.

HEAD STUFFED FROM CATARRH OR A COLD.

Says Cream Applied in Nostrils
Opens Air Passages Right up.

Instant relief—no waiting. Your
clogged nostrils open right up; the

air passages of your head clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

A TONIC

Grove's Tasteless chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value. Grove's Tasteless chill Tonic is simply Iron and Quinine suspended in syrup. So pleasant even children like it. The blood needs QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and Grip germs by its Strengthening, Invigorating Effect.

Colds Cause Grip and Influenza

AXATIVE PROMO QUININE Tablets remove cause. There is only one "Promo Quinine" with GROVE'S signature on box. 30c.

BEGIN WORK ON MILAM HIGHWAY FOR COUNTY.

Cheaper Hulls

Owing to the fact that the price of cotton seed has declined I now offer the stock of hulls on hand at \$13.00 per ton. We had to ship in hulls and meal for the trade this year and these hulls cost us \$18.00 per ton, but the new crop will be much cheaper. These will be sold while they last at \$13.00 per ton.

WACO PREPARES FOR VETERANS OF WAR AT MEETING

LEGION CONVENTION TO BE
HELD SEPTEMBER 11 TO
13, 1922.

Waco, Texas, Sept. 5.—Plans are well under way to convert the Cotton Palace grounds into a huge cantonment, and to fill the city with the spirit of war time days on the occasion of the fourth annual convention of the Texas Department of the American Legion in Waco, Sept. 11th to 13th. Reports of the heads of committees indicate that everything is working out smoothly. The war Service Organizations have entered enthusiastically into the providing of service and entertainment similar to that offered during the war, the Salvation Army having already definitely planned a hut, built on the order of the dugout where coffee and doughnuts will be dispensed, and the Y. M. C. A., the Knights of Columbus, and the Red Cross being hard at work along the same lines. Canvas cots have been obtained, which will be placed in Machinery Hall for the use of delegates at a nominal cost and arrangements have been made to serve excellent meals too, in an adjoining exhibition building. Details of the mimic French Cafe are being worked out and a number of concessions of various kinds have been granted, all of which will add to the pleasure of the delegates sojourning in the peaceful camp.

Legion Smith's orchestra, Dallas has been obtained to furnish music for and the Reception Committee reports the two dances at the Cotton Palace that plenty of Waco's best looking girls will be on hand as partners. The Spring Lake Country Club plans a big entertainment for the closing night of the Convention, and the Athletic Committee is gathering in the pugilists and wrestlers for the "Ruff Nek Nite."

Delegates will be met at the station and escorted to the "camp" in numerous cars, which have already been promised, and every automobile in Waco will be commandeered for the free ride over the city on the evening of the 13th. The citizens of Waco are determined to do everything in their power to make the convention a success.

The 36th Division Reunion will be held jointly with this convention, and other reunions are in prospect.

Five bands have accepted the Legions invitation to be present, and a unit of Field Artillery, which is expected to reach Waco on Sept. 11th,

Famous Pastry Chef
Has Tasty Bran Dish

Francois Schmitt

A BRAN pudding, termed by those to whom it was served as "simply delicious," has been evolved by Francois Schmitt, pastry chef of the Hotel Pennsylvania, New York. Here it is:

Four heaping teaspoonfuls bran, one tablespoonful flour, one-half tablespoonful corn starch, four eggs, three tablespoonfuls sugar, one-half cup butter, one-half pint milk. Chop up butter with flour, corn starch, bran and half of the sugar and add to boiling milk; stir well on fire for about one minute, take off, mix in the four yolks. At last add the four whites beaten stiff with rest of sugar. Pour in well buttered and sugared form and set in pan with a little water in bottom and bake in medium oven for about thirty minutes.

Serve with apricot sauce made as follows: Put contents of one small can of apricots through a sieve, add one-half pound of sugar and let boil for about five minutes.

will remain over the Convention. This, coupled with the fact that many of the Legionnaires will be in uniform will make the cantonment around which all activities will center even more realistic, and both participants and on looking citizens will be carried back to the stirring days of 1917 and 1918. No details will be overlooked in arranging a big time for the ex-service men in attendance.

National Commander McNider and the other distinguished visitors will find a record breaking crowd of five thousand delegates in the convention city.

+ POLITICAL ANNOUNCEMENTS +

The Herald is authorized to announce the following candidates for the offices named as nominees of the Democratic Party subject to the general election November 2, 1922.

- LUTHER A. JOHNSON.

COKE PHIPPS.

Habitual Constipation Cured in 14 to 21 Days

"LAX-FOS WITH PEPSIN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It stimulates and regulates. Very Pleasant to Take. 60c per bottle.

LARGEST FILING FEE IN CLERK'S OFFICE HISTORY IS RECORDED.

The largest filing fee in the history of the office of county clerk was recorded last week when an instrument was filed by the Empire Gas & Fuel Company as grantor of a deed of trust on their holdings in the county to the Equitable Trust Company. The filing fee was \$78.15 the largest for any instrument ever filed in the office, according to Clerk Will T. Yates who says it is the largest during his service and Mr. Kemp who held the office for many years says he has no recollection of any filing fee as large as this one, covering the massive document. Recently in Harris county an instrument was filed with the recording fee amount to \$78 and was given special mention in the Houston Chronicle.

TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its
Natural Color, Gloss and
Attractiveness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.

MARRIAGE LICENSES.

Jose Saria to Enos Hernandez.
Charlie Simpson to Fannie Taylor.
Fred Williams to Laura McKinney.
John J. Williams to Emma L. White.
Epifanio Martinez to Marie de la Garza.

666

Cures Malaria, chills and fever, Dengue or Bilious Fever. It kills the germs. 3-20-11

Hemstitching and dressmaking Mrs. Allie Kinard, Moore building Cameron, Texas. 4tf

It is a powerful and scientific combination of sulphur and other healing agents for the relief and cure of diseases of the skin. It is especially effective in the ITCHING VARIETIES; giving instant relief from the itching and smarting sensations and by its germ-destroying properties it exterminates the microbe which is the cause of the eruption, thus curing the disease completely.

Littell's Liquid Sulphur Compound is used in all cases of Eczema, Tetter, Barber's Itch, Psoriasis, Herpes, Rash, Oak and Ivy Poisoning, also for relieving the annoyance caused by chiggers and mosquito bites.

In the treatment of ECZEMA—the most painful and obstinate of all skin diseases—it is one of the most successful remedies known.

Small size 50 cents bottle. Large size \$1.00
JAMES F. BALLARD, Prop. St. Louis, Mo.

DOES YOUR COMPLEXION RIVAL THE ROSE'S?

A pretty girl should look her best in the morning—awakening with flower-like freshness of complexion, welcoming the revelations of searching sunshine.

Such charm is not necessarily a gift of nature, but the result of knowing what your skin needs—of giving it the intelligent daily care which makes it bloom with health.

The secret is a thorough cleansing every day to remove all dirt, surplus cold cream, rouge and powder. This can only be done with soap.

The soap must be mild, balmy and soothing in its action. Palmolive is such a soap. It is the scientific blend of Palm and Olive oils, the cosmetic cleansers of Cleopatra.

You can buy Palmolive Soap at all first class groceries and drug stores.

THE PALMOLIVE COMPANY
Milwaukee, Wis.

"MINERAL RESOURCES OF TEXAS."

In our monthly Magazine Section, which will be issued by the Cameron Herald September 14th, S. H. Sellards, geologist of the University of Texas will discuss under the title of "Mineral Resources of Texas," our coal and lignite fields. Texas has vast natural fuel resources, and in view of the impending scarcity of coal this winter, it might be well for us to read up on our coal and lignite possibilities.

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

SAFETY FIRST REQUIREMENTS

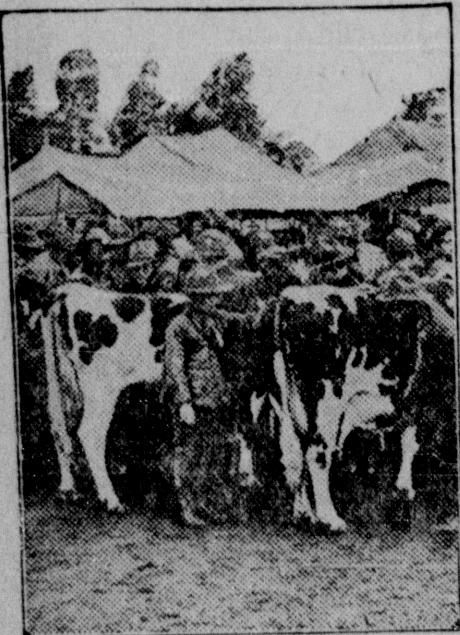

Every first-class scout who qualifies for the merit badge in safety first must pass the following tests:

1. State four or more dangerous conditions in the average home and indicate what steps should be taken to correct these conditions.
2. Produce satisfactory evidence that he is personally responsible for the application of at least two constructive safety first principles in his own home.
3. Name the most serious violation of public safety principles which has come under his observation, and produce satisfactory evidence that he has done all within his power to correct the same.
4. State in writing at least six of the most important regulations covering street safety to meet the conditions of the neighborhood in which he lives.
5. State in writing at least six of the most important regulations covering street safety to meet the conditions of the school he last attended.
6. Submit in writing an outline of his own plan for a school fire drill and explain the method of properly carrying it into effect.
7. State in writing at least six violations of safety first principles which are responsible for accidents in connection with railroads.
8. Stand a satisfactory examination showing a knowledge of the important principles it involves, and satisfactorily demonstrate his ability to assume leadership in case of a fire, panic, or other disaster. (Badge, green cross on white ground.)

In 1919, 2,203 boys passed this test. How many of you adults who read this test could pass it? How many accidents do you suppose could have been prevented in your town last year if the adult population took as intelligent an interest in this kind of thing as the boy scouts do.

SCOUTS LEARN MILK TESTING.

The Pioneer division of the Boy Scouts of America is organized for boys who live in remote rural districts or in small communities where scouting is not yet established. A great number of farm boys are availing themselves of the opportunity offered

Pioneer Scouts Learn Milk Testing.

to practice scouting. The accompanying cut shows a group of pioneer scouts who have learned the proper testing of milk, showing their skill at a state fair.

SCOUTS AS TRAFFIC AIDS.

In Fort Smith, Ark., scouts were recently put on the job of recording their observations as to how well drivers of automobiles were obeying traffic laws and reported that one-third of the motorists observed did not slow down for railway crossings and were otherwise criminally negligent. As a result of this report a more stringent watch was set on traffic and safer conditions enforced.

Another traffic job which won much praise locally was the aid rendered by boy scouts to the police department of Detroit in handling holiday crowds on two of the city's busiest

Cadets' Great Ride.

Two hundred and fifty senior cadets of Victoria, B. C., have recently completed a 1,400-mile ride on bicycles, bearing dispatches from the state commandant to the minister for defense. The small riders averaged more than 14 miles an hour, and they completed their task 6 hours and 23 minutes ahead of schedule. This fine performance roused public interest in the new system of cadet training, which has taken the place of the monotonous drill-yard evolutions. Australia is training its youngest soldiers in camaraderie, self-sacrifice, alertness and a love of athletics. The story of the 1,400-mile ride against unexpected obstacles has set a standard which will not be easily forgotten by the Australian boy. While the dispatch ride has done much to direct attention to a happier system of training, it has also served to awaken the interest of fathers and elder brothers.

Eggs From the Orient.

A train of 25 cars, loaded entirely with Japanese and Chinese eggs, left Vancouver, B. C., the other day, bound for New York. The train was made up of nine carloads sent over from Seattle to be attached to sixteen carloads of eggs from the steamer Empress of Russia. The eggs from Seattle were delivered by Japanese liners. The eggs, with the exception of 1,500 cases for London, England, and 1,000 cases for Montreal, were all consigned to New York. The shipment to the latter point consisted of approximately 17,500 cases of 30 and 36 dozen each, or about 6,500,000, more than an egg for breakfast for every man, woman and child in New York city.

Cures Malaria, chills and fever, Dengue or Bilious Fever. It kills the germs. 3-20-tf

Hemstitching and dressmaking Mrs. Allie Kinard, Moore building Cameron, Texas. 4tf

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials. F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, etc. Hall's Family Pills for constipation.

HEAD STUFFED FROM CATARRH OR A COLD.

Says Cream Applied in Nostrils Opens Air Passages Right up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

FAMOUS HEREFORD SIRE ON PAUL GRAVES FARM.

Here is the famous Hereford Sire on the Paul Graves farm near Sharp. This Hereford Bull was shown at the Chicago Stock Show in 1920 and was purchased by Paul Graves. This bull was shown at the stock show in Cam-

eron and created considerable comment among breeders of Hereford cattle. At the coming show this bull will be exhibited by Mr. Graves, who as a breeder of purebred livestock is doing much to promote these vital

interests in all sections of the county. Mr. Graves is a member of the Milam County Purebred Livestock and Poultry Association as is also his brother, George T. Graves, of Cameron, breeder of Hereford cattle.

\$57,500,000 LOAN MADE BY WAR BOAARD TO FINANCE COTTON

WORK OF EIGHT COTTON ASSOCIATIONS OF SOUTH IS TO STABILIZE PRICES.

Dallas, Texas, Sept. 4.—Applications for loans totaling \$57,500,000 have been granted by the War Finance Corporation to cotton marketing associations in eight states of the South, according to advice received here. This money is for the financing of the 1922-23 crop.

The eight states and the amount granted to each are as follows:

Texas	\$ 9,000,000
Oklahoma	6,000,000
North Carolina	10,000,000
South Carolina	10,000,000
Mississippi	7,000,000
Georgia	5,000,000
Alabama	3,000,000
Arkansas	7,500,000

Total \$57,500,000

The pima cotton growers of Arizona have applied for a loan of \$1,200,000. Word has not reached here, however, that it has been granted.

Commenting on these figures, J. M. L. Hall a Bowie county farmer and secretary of the Texas Farm Bureau Cotton Association, says: "The work

of the cotton association is directly responsible for the high price of cotton. If the news should be flashed over the country that War Finance Corporation had withdrawn its loan to the cotton associations, where do you suppose the price of cotton would fall to?

"Our main work is to stabilize prices so that they will not slump when cotton or any other commodity is dumped on the market, the supply is greater than the demand and the bottom falls out of prices. The business of the Farm Bureau is to sell gradually—feed it to the consumer as he can use it—make the supply just satisfy the demand. This puts a stop to dumping. It puts a stop to the break in prices. It keeps prices high. The present high prices for cotton in my opinion are due largely to the \$57,500,000 which has been granted to the South to sell its cotton gradually and to the fact that Southern farmers have pooled nearly 3,000,000 bales to market in orderly manner.

"If the cotton marketing associations fail, then we can expect the price of cotton to fall back down to the old levels. The associations must not fail. Every broad minded farmer who stops to think will see the reason why the associations must not fail."

SPARE TIRES SHOULD
BE USED OCCASIONALLY.

"It is a good thing to go to the

trouble of using your spare tires a day or two at least once a month," is the advice of August Horstmann of Horstmann Bros., dealers in United States tires.

"We are informed that the highest authorities on rubber state that for some unknown reason rubber remains durable much longer if it is used occasionally than if it remains unused month after month. When a tire doesn't get any use a deterioration sets in which proceeds much less rapidly if occasionally it gets a chance to have all its particles stirred up by being used a day or two.

"Speaking of spares, it might be well to reiterate the fact that spares will last better if they are covered up so that the bright sunlight does not strike them."

Blacksmithing and Horseshoeing

Wood work a specialty, M. r. Joe Hamble, Sr., is the workman of the wood department. If it's anything that can be made of wood Mr. Joe Hamble, Sr., can do it no matter how small are big or nice, or hard to be made, he can make it. See us for your wood work. Cameron, Texas.

E. J. Sebesta

Economy Carried to Excess.

A short time ago, on seeing a man who was sitting beside me in a cafeteria "get away" with a large hamburger sandwich in three bites, all "mind your own business" policies were cast aside and I remarked, "You must intend to catch an out-of-town train; you are in such a hurry."

He came back with, "Oh, no. You see every one's stomach requires a certain amount of meat and it is known that by gulping it it takes longer to digest. As meat is high I eat this way and by so doing I have to eat meat but every third day."—Exchange.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

STOP THAT ACHE!

Don't worry and complain about a bad back. Get rid of that pain and lameness! Use Doan's Kidney Pills.

Many Cameron people have used them and know how effective they are. Ask your neighbor! Here's an Cameron case.

Mrs. S. A. Gjedde, gave the following statement June 26, 1915: "I am glad to endorse Doan's Kidney Pills for they have done me lots of good. My back ached constantly and I wasn't able to do my work. I was down in bed part of the time and suffered constantly. My head ached and I could hardly see from dizziness. Rheumatic pains darted through my back and sides. My kidneys acted too often and most of the time not freely enough. I was caused much pain and there were other signs of kidney weakness. I was in bad condition when I read about Doan's Kidney Pills and sent to the City Drug Store for them. Two boxes of Doan's put my kidneys in good order and rid me of the pains in my back."

On July 2, 1919, Mrs. Gjeddie added: "All I have previously said in recommendation of Doan's Kidney

Pills, I gladly confirm. I feel I owe my good health in my advanced years to Doan's Kidney Pills."

DATE OF BIG KLAN MEETING CHANGED TO SEPT. 14

On account of the inability of some prominent Houston and Waco Klan officers to be present at our celebration this week, we have deferred to their wishes and changed the date of the meeting to Thursday Septmbr 14th.

There will be a PUBLIC NATURALIZATION CEREMONY followed by PUBLIC SPEAKING and we are sure that all friends of the Klan will spend an enjoyable evening. Seats will be provided for several hundred old men and old women and women with small children, so if there is any question about your being unable to come on account of the discomfort of standing, come on any way.

You will learn something about the Klan, what it stands for, and what it does not stand for as well.

The place of meeting is on the eastern edge of the city adjoining Hefley Heights and we expect to start the work shortly after nightfall.

There will be a barbecue provided for all Klansmen present following the Naturalization Ceremony and Speaking.

Cameron Klan Rockdale Klan Gause Klan

WANTED ADS.

FOR SALE—Second hand Latin and Spanish grammars and readers. Half price. Mrs. W. A. Gillon.

FOR RENT—Store room in business district, for further particulars, see S. A. Cottle at Auditorium Hotel

DOLLY'S BIRTHDAY

"Dolly's birthday is coming!" "Dolly's birthday is coming! Soon, very, very soon now it will be here." And at last it could be said, "Dolly's birthday is here."

Now you may think that Dolly is a very particularly nice doll, but you are wrong. Your guess would be a very good one, but even the best of guesses sometimes are not right.

For Dolly is a little girl. Her real name is not even Dolly, so you see how hard it would be for you to guess anything about Dolly.

Her real name is Margaret, but because she is small and dainty and a great pet and a great favorite she has always been known as Dolly.

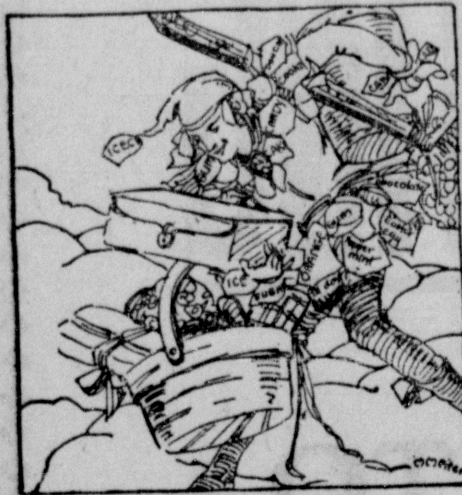

At least that is the name she is called by those who love her very much and who know her very well.

Her family call her Dolly and it is a very great compliment when one's family finds that only a pet name will do, for a family is very apt to know one very well indeed, oh, so very, very well.

Yes, it was Dolly's birthday over which there was so much excitement and at last Dolly's birthday had come.

Dolly's birthday had usually been celebrated at eleven o'clock in the morning, but this year it was to be celebrated at supper time and Dolly was to sit up one hour and a half later than usual.

It would be such fun to sit up a whole hour, and then a half of an hour besides, beyond the usual bed

"The Packages Which He Had."

time. An hour was nice in itself but that extra half hour would be such fun!

There would be piano playing and singing and games and fun and then there would be extra nibbles of food, for even though there was to be an unusually good supper, still there would be a little room left by everyone for an extra crumb or so of cake. Not to mention an extra candy. Dolly was to have a cake. And candles too. And around her place there would be flowers and ferns. The candles would burn brightly on the cake. Every single thing would be done to make the birthday a very festive occasion.

Now, as I've said, the birthday had come at last as birthdays will do. Sometimes they seem rather slow about arriving. They seem to take their time. But it really doesn't matter if they do take their time for they seem to be more exciting when they do that way. The Fairy Wondrous Secrets had been very busy doing up all sorts of wonderful secrets for Dolly's birthday and she was sending them along by the Dream King.

The Dream King had sat upon Sleepy Time cloud, which is his favorite seat as you know, and he had decided that not only would he call upon Dolly on her birthday, but he would call upon her the night before her birthday, too.

The packages which he had with him were wonderful.

In one was Happiness.

Perhaps you do not know how Happiness can be wrapped up in a package and only the Dream King and Fairy Wondrous Secrets know just how to fix up this package. But it contains many little parts and when these parts are scattered about by the Dream King they take up their abode in a person's room.

Then, too, they follow a person around, very often, very, very often Happiness finds its way straight to a person's heart and there it stays most contentedly. In another package was Long Life and it was going to follow Dolly about. In yet another was the Key-to-the-Secret-of-Knowing-How-to-Enjoy-Things. That was one of the best packages of all, for that key can unlock so much joy.

And that key was going to be given to Dolly! All through her life she would know how to enjoy things, not just big presents but all sorts of things about her, such as the flowers and the birds, a garden, and the love of her family and of many friends.

These were some of the Dream King's packages and he gave them to Dolly. There were presents from her family and her friends and when the candles upon the cake were lighted at supper that very evening everyone felt the candles were burning more brightly than ever.

And indeed they were. They wanted to be their very brightest in honor of the very bright little Dolly.

And the "Many Happy Returns" which were wished her were meant indeed. Oh, I can well assure you of that!

HIKING DOWN THE LONG BROWN PATH

Vacationists With Shelter Tents and Tin Cow Learning to Walk 'All Over Again.

Oh! It's not the pack that you carry on your back. Nor the rifle on your shoulder. Nor the five inch crust of khaki-colored dust. That makes you feel your limbs are growing older. And it's not the hike on the hard turnpike that drives away your smile. Nor the socks of sisters that raise the blooming blisters. It's the last long mile. —Pittsburgh Marching Song.

Stringing out from the suburban transit terminals of New York every Sunday and holiday goes the army of khaki-clad hikers. There may be an automobile for every twenty of the country's population, but a host of city folks disprove the theory of a future log-enfeebled citizenry and are learning to walk all over again.

To the more casual minded, the hike is just exercise, but to those who catch its real significance the hike means a great deal more. It is the cheapest form of recreation and therefore appeals to those living in crowded districts and unable to avail themselves of the more expensive amusements. And these people, be it noted, are just those the country is so anxious to have spread out and settled in the farming sections. The hike, indeed, has possibilities as a real starter for the "back to the farm" movement.

Doughboy and Boy Scout Lead Way

Just a brief survey of the rollicking groups which move off from the outlying terminals on holidays establishes a few general types. There is the ex-service man and his friends who will hear from him the story of more serious excursions on the muddy roads of France. He tightens a strap here and another there on the blanket roll adjustment or the "shelter half," in which the commissary is packed for the mid-day feast by the roadside. Expert directions come from him on the method of slinging the pack so it will not feel so heavy or interfere with the free body movement. He will pass along the information, gained in his army days, of how that same pack was evolved after numerous experiments to find the easiest way of carrying the heaviest load. With results he now compliments, but which he characterized when a doughboy as a "blankety-blank total failure."

Then there are the boy scout parties, adept at everything pertaining to "shanks mare" traveling and woodcraft. The ex-service man and the boy scout are pioneers in the hiking game. Listen to one of them right off the train and making ready for a twelve mile jaunt: "Get that canteen over to the side, Jimmie, and it won't keep bouncing off your leg every step. Is it filled? Well, then, we drink. How about the eats? Let's check 'em off. You got the spuds, Bill; the bacon Jimmie. Who has the coffee and the Borden tin cow?"

"Right here," announces a freckled comrade of the road, patting his knapsack. "Snatched the mocha and the can of milk when Sis wasn't looking."

"Well, then, let's go!" snaps the commander of the expedition.

This party is traveling light for real distance. Another must expect to make a shorter hitch or else be counting greatly on its power of endurance. Perhaps the camp is not far off because the group is equipped for an over-night stay with heavy blanket rolls, hatchets, lanterns, canvas waterpails, rubber ponchos, kettles, pots, new fangled firestand, etc., etc. The blankets are laid out for a better packing of the bags and cans of food. When the party commences to load up the members bristle all over with camp tools and equipment.

Back to the Farm

The veteran from the crowded city tenements has found a new territory to roam and one almost unknown to his associates. He is introducing them to this newly discovered land and teaching them how to be independent of any transportation but their own good legs and of any subsistence but what they can carry and prepare. "Walk, and cook your own," is his motto.

Who will say the heaven thus fermenting in the city crowds will not bear fruit in a keener appreciation of country delights, especially as these are added to by increased comforts on the farm. With his radio hitched up, the farmer listens in on the best entertainment the country has to offer. Modern home devices wipe out many hardships formerly imposed upon isolated dwellers. There is, in short, a rapid cutting down of the differential between farm and city life.

In the meantime, knowledge must precede a true appreciation of what the country holds, and this is what the hike supplies. There is more appeal in one apple tree in blossom than in reams of printed matter put out to induce the citizen of the city to change his abode to the country. The hikers constitute a growing army, equipped with bacon, spuds, coffee and tin cow for merely a day's outing but nevertheless seeing sights that make them yearn to be among them all the time. It is not too much to assume that the army may one day recruit the open places.

MEAN OLD MEASLES

"What is this? What is this? Well, this makes me too mad!"

Peter Gnome was speaking and his dear little face looked cross and unhappy.

"I can't help it, but it does make me mad," he repeated. "And I've only just heard about it. Those old things are so sly. And I hate slyness. I never did like it. I like honesty and straight-forwardness and sincerity. I hate slyness as I've just said."

"What is the trouble, Peter Gnome?" asked Fairy Grant-Your-Wishes.

"I've just heard that Mean Old Measles has gone to pay a visit upon lovely Lucy. You've heard me speak of Lucy, Fairy Grant-Your-Wishes, haven't you?"

"The little girl you love so much? The one with the blue eyes and the fair, fair hair and the soft pretty skin and the gay happy voice?"

"The very one," said Peter Gnome. "Well, Mean Old Measles is visiting Lucy. And Measles just went there on the sly, no one knows how! Measles acts the way all that sly family do."

"Chicken-Pox and the others are just the same way. They all have the same family ways. But, you know I think Measles just might have left Lucy alone. You know it wasn't so very, very long ago since those wretched Tonsil Twins were in Lucy's throat. They were forced to leave. Oh, yes, they were done away with, I'm thankful to say. But they were mean, too, and they didn't leave easily and quietly and without a sound. They simply had to be yanked out."

"And then along came Measles. Yes, Measles spoils everything. But did Measles care? No, Measles didn't care in the least. Measles took along that mean friend Carrie Cough, and then Measles took along all the little Measles. They're such mean little creatures—nothing more nor less than mean little red spots, are they! "And it seems they started right in to play games right over Lucy's face and body, and they ran races and they played house. Do you know how they play house among Measles' children?"

"I've no idea," said Fairy Grant-Your-Wishes.

"They call it the game of rash instead of house, and their one idea is to take up all the room they can and spread out all they can and in some parts they have make-believe open fires and in other parts they put down rugs that makes the poor person who has the measles want to scratch these parts!"

"And the make-believe open fireplaces of the Measles' children feel just like a horrid Measles heat would feel. Doctors call it the fever that comes with Mean Old Measles. And all of these are visiting Lucy."

"I'll tell you what I'll do," said Fairy Grant-Your-Wishes. "I'll dash over to Fairy Wondrous Secrets. Together we'll do up a little package. When Mean Old Measles gets under way we can't get rid of her entirely right off, but we can make things a whole lot better."

"As you say, Measles is very sly. So sly that it is almost impossible to see her on her way. I have to get Fairy Wondrous Secrets to help me, for my work has never happened to be near Mean Old Measles and I don't know her ways. Fairy Wondrous Secrets does. Wait, Peter Gnome! I'll not be long."

In a few moments Fairy Grant-Your-Wishes was back, and Fairy Wondrous Secrets was with her.

"Take this little package," they said together, as they waved their wands, "and put on your invisible robe. Dash into the room where Lucy is and open this package upon her forehead. She will think it is nothing more than a small breeze of refreshing, cool air on her hot forehead."

"But it will be different. It will do its work. You shall see."

Off went Peter Gnome and after he had emptied the package upon Lucy's forehead and had heard her say, "Oh, my forehead feels cool and nice now," he waited around for a little.

It was not long after that the doctor came, and oh, how little Peter Gnome's heart did dance with joy under his invisible robe when he heard the doctor say,

"The worst of it is all over with now. She will now go along the Getting-well-Road which all who are sick so enjoy to travel. The change for the better has just begun."

"It Does Make Me Mad."

trouble, Peter Gnome?" asked Fairy Grant-Your-Wishes.

"I've just heard that Mean Old Measles has gone to pay a visit upon lovely Lucy. You've heard me speak of Lucy, Fairy Grant-Your-Wishes, haven't you?"

CONSTABLE'S SALE.

THE STATE OF TEXAS

County of Milam.

By virtue of a certain Alias Execution issued out of the Honorable District Court of Bell county, on the 6th day of July 1922, by L. H. Carll, Clerk of said Court against A. R. Rhoades for the sum of Seven Hundred Seventy Five and no-100 (\$775.00) Dollars and cost of suit, and interest at 6 per cent from April 11, 1921, in cause No. 12988 in said court, styled Nora Reynolds Rhodes versus A. R. Rhoades and placed in my hands for service, I Chas. Sens, constable of Precinct 1, Milam county, Texas, did on the 14th day of August 1922 levy on certain Real Estate, situated in Milam county, described as follows, to-wit:

Lot No. 2, in block No. 2, in the town of Gause, Milam County, Texas, and levied upon as the property of said A. R. Rhoades, and on Tuesday, the 3rd day of October, 1922, at the Court House door of Milam county, in the City of Cameron, Texas, between the hours of ten A. M. and four P. M. I will sell said Land at public vendue, for cash, to the highest bidder as the property of said A. R. Rhoades by virtue of said levy and said Alias Execution.

And in compliance with law, I give this notice by publication in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Cameron Herald a newspaper published in Milam county.

Witness my hand, this 7th day of September 1922.

18 3t CHAS. SENS,
Constable Precinct 1, Milam Co.
